AS has been expected for some time Mayor Preston this week announced his candidacy for re-election as mayor of Baltimore. It has been long recognized that Mayor Preston has made the most progressive mayor Baltimore has had in the memory of the present generation. He has made virtually a new city of Baltimore; has given it a new sewerage system second to none in this country, besides many other important public improvements. We believe the people of Baltimore fully recognize what Mayor Preston has done for that city and will re-elect him.

Grange Notes

Still Pond Grange held a very happy automobile party last Saturday evening, and as it was so helpful, and entertaining and instructive, they propose holding more parties in the near future. The prizes were awarded as follows: Mrs. H. E. Moore, for Automobile Romance, a horn. The Packard team each received a "set of tires" for best "poetry" on name of car, as follows:

We all went to town in a Packard,
Before we got there, it would only run back'ard.

There was a tie between the Packard team and the Maxwell team, but the Overland and Chevrolet both had good ones also. Then all the folks there under 99 lined up for a race, and it was some race! Albert Jervis' team won, each receiving a piece of "emergency tire mender." A little stunt song, by Jessie Moore and John and Sara Harris, was startling to most of the folks, and an interesting discussion on "Which is more foolish, the farmer who neglects his work by continually joy riding, or the one who never uses his car to go around and see what his neighbors are doing, but keeps it strictly for errand."

Preceding all this was a fine supper and installation of officers. We are planning for some snappy meetings this winter, and will hold a regular meeting on Saturday, Feb. 9, at 2.30.

On Saturday, Feb. 15, at 2.30, we will hold our Tomato Party and all grangers in the county are invited to meet with us. Many interesting things are in view for this meeting, and it will be a chance to discuss the price and quality features of this important crop.

When it comes to community singing, there is room for a little(?) improvement. Would suggest that before the institute be held here, that all the folks learn the words of Maryland and When Johnny comes marching Home. Some of the grangers already know the first verse of the latter song, so they have a start on the rest of the bunch. Let's sing some more!

And listen! How many of you know that an enemy aeroplane dropped a bomb on London, and wiped out the life of Mrs. Lena Guilber Ford, who wrote the inspiring song, "Keep the Home Fires Burning"? One of the best ways to keep them burning is with singing, so let's sing, and then sing again! No need to sign my name to this, I guess by this time, all know who's talkin'.

Perfect Fitting Guaranteed

PROOF of Avery Tractor success is shown by the way Avery Tractor sales grow in the same community. When one farmer gets an Avery Tractor, his neighbors watch its work closely. It is not long before another Avery arrives and then another, for his neighbors see that Avery Tractors stand up under the work.

Likewise, when an Avery gets into a family, other members of the same family soon become Avery owners. Brothers, cousins, fathers and sons, uncles, and nephews are buying Averys. We have many records of where two, three and four brothers in the same family have bought Avery Tractors. The fact that neighbors, friends and relatives buy Avery Tractors after they have watched carefully the work of the first Avery Tractor in their community or family, is the very best proof that Avery Tractors are a success.

Power for Every Farm Need

You can get an Avery Tractor to exactly fit your size farm. Avery Tractors are built in six sizes—a size for every size farm. With an Avery Motor Cultivator you can also cultivate your row crops with motor power. You can also get a size Avery "Grain-Saving" Separator and Avery Plow for any size Avery Tractor. For any kind of field work, belt work or road work, there is a successful and profitable Avery Motor Power Machine.

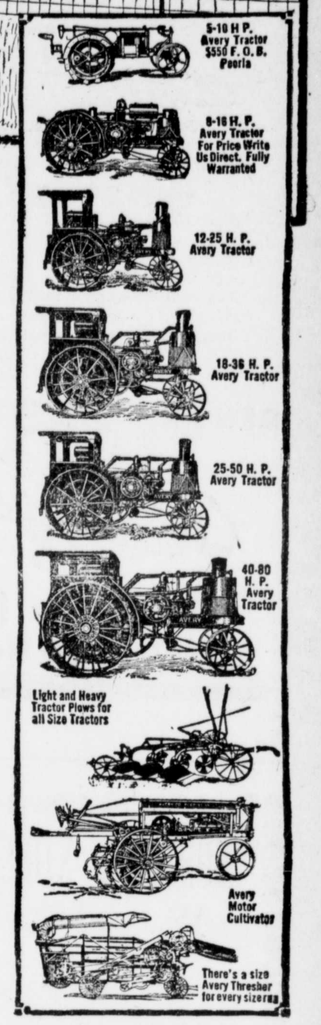

Built by Motor Farming Machinery Specialists

The five sizes of Avery Tractors, from 8-16 to 40-80 H.P., are all of the same design. They have low speed motors, renewable inner cylinder walls, adjustable crankshaft boxes, gasifiers that turn kerosene into gas and burn it all, and many other original and exclusive features.

Avery Tractors are built entirely in our own big factories and every part of an Avery Tractor is built especially for tractor work and only for the Avery Tractor. Avery Company are *builders*—not assemblers.

See the Nearest Avery Dealer

Go to your Avery Dealer and get the size tractor and equipment to meet the needs of your size farm. No matter how small or how large the acreage you cultivate, Avery motor farming machinery will fill your requirements. Or, write for complete catalog, showing the Avery Line in natural colors.
