TOMATO GROWERS' MEETING
A Large And Interested Crowd Attended

The Tomato Growers' Meeting at the Chestertown Courthouse Tuesday was well attended by two hundred interested growers representing all parts of the county.

The meeting was called to order by President E. A. Corey and Rev. S. S. Hepburn gave a short address of welcome to the eight visiting members of the Peninsula Tomato Growers Association from down the shore. Mr. J. Frank Wright, of Denton, Md., responded and told of the work of the Association about Denton.

Mr. John E. Patton, of East New Market, president of the Peninsula Tomato Growers' Association, addressed the meeting, reviewing the work of the Association since its origin, three years ago. He told benefits of the Association and urged us all to join. Although 1540 carloads of tomatoes were shipped into Dorchester county from Delaware last year and glutted the market, the members of the Association received an average of 55c per basket for their entire crop, while during a period of two weeks many of the Delaware growers got only 13c to 15c per basket.

Mr. I. O. Taylor, organizer and sales manager of the Hurlock branch of the Association, told us of the work about Hurlock. He emphasized the mottos, "Keep a record of your farm crop," "Know your own business first" and "The farmer should grow tomatoes at the cost of production plus a fair profit or not grow them at all." If a farmer grows a crop at a loss, he is not a business man. The farmers must organize in order to be sure of a profit on their crops.

At the request of the chairman, Mr. John N. Bennett told of the work of the Association and emphasized the importance of organization. The present low cost of canned goods is due to the fact that the housewives of the country, in order to assist the government in feeding the world, put up for home use more than twice as many tomatoes as ever before. Experts assure us that the bulk of the home canned goods will be used by the first of July. The canned goods held by the government will not be placed on the open market. The canners of the country have on hand only about one million cases of our record pack. There will be a marked advance in the price of canned goods about July 1.

Mr. A. L. Harris gave a report of the meeting at Seaford last Thursday. After a thorough discussion of the cost of growing tomatoes, they set the price of $25 per ton, which the grower should receive this year in order to give him a fair profit. They also recommended that the acreage be decreased.

Moved by Mr. Harris that the Kent farmers withdraw the price agreed upon at the last meeting and join the other counties of the tri-states in the price of $25 per ton, or $24 if the canner furnishes the basket. Passed.

Moved by Mr. Bennett that we organize a permanent association to affiliate with the Peninsula Association and that the present officers be retained as officers of this Association with the addition of the County Agent, Mr. L. L. Burrell, as Assistant Secretary. Passed.

Mr. H. C. Willis resigned from the committee and Mr. H. H. Baker was elected to fill the vacancy.

Mr. John N. Bennett was also added to the committee. Due to the lateness of the hour the adoption of constitution and by-laws was left until the next meeting to be held in the near future.

FARMERS, ATTENTION!

This is a splendid chance for farmers to take stock on their harvesting and haying machines, or any others they will use during the year. Look each one over and note carefully any part that may need replacement. A little later you will be pressed for time and then a thorough examination will be almost impossible.

The repair problem can be much simplified by this method. While we have always tried to meet promptly every call of this kind, realizing how valuable your time is, having this advance information will aid us very much in making our esrvice complete.

A list of your possible requirements will enable us to check up our stock of repairs to see that not a single part you might need is missing.

We want to cut to a minimum the time between the need of a repair part and its supply. This you can help us do by giving us this list.
