CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Navy Still Needs Men

Now that the war-time hysteria has somewhat subsided why not sit down and "look the thing squarely in the face."

America has set a pace! America, herself, must KEEP that pace. In other words, we have a standard to uphold.

While abroad the great question of peace is being discussed, Americans are turning their minds to conditions at home, preparatory to meeting the world's needs.

Chief of this work of settling down to business is the augmenting of the seafaring complement. The navy complement must be maintained at increased strength and the merchant marine must be fitted out. The commercial development is the "biggest thing in life" just now. Big things are to be asked of America and America must be ready.

Do not get the notion that because hostilities have ceased that the work of the navy has also come to a halt. The activities of the navy are to continue in the task of reconstruction.

Two hundred thousand men will be needed to carry out the plan of a big working peace-time navy.

Over fifty-five trades are open to young men with ambition who desire to obtain a technical training under the best of instructors.

Machinists, firemen, engineers, boilermakers, ship-fitters and many others are practically needed. Men with no experience or trade knowledge may enlist as apprentice seamen or firemen and chose a trade later, after seeing what the navy has to offer in the way of a trade.

Busy scenes are daily being enacted at the local recruiting station, 1515 Arch St., Phila., Pa. Drop in, when you are up that way and the boys will be glad to give full information as to the needs of the navy and the advantages it has to offer.
