THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

"Don't wait until the final due date, March 15th, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is any point on which he needs advice he can now get in touch with a Revenue man."

This word of advice is from Joshua W. Miles, Collector of Internal Revenue, Baltimore, who is collecting the Income Tax in Maryland and Delaware. Collector Miles is giving without charge every aid of his office and his enlarged field force to help the people get their payments and their returns in by March 15th.

But the Income Tax men will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every individual to figure out his own case and to get busy if he comes within the scope of the new Revenue law.

Did You Earn This Much?

Every unmarried person who received income averaging $19.25 a week during 1918 and every married couple who jointly received income averaging $38.50 a week should secure at once from the nearest Deputy Collector or the nearest bank a blank Form 1040 A. That form contains the information he will need to enable him to figure his correct net income and any tax that he owes the Government.

The law requires that every unmarried person who had a net income of $1,000 or over and every married person whose net income was $2,000 or over (including the income of husband or wife and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not hinge on whether the person owes a tax.

Taxable Income.

An individual must include under gross income all gains, profits and income derived from salaries, wages or compensation for personal service of whatever kind and in whatever form paid or from professions, vocations, business, sales or dealings in property of all kinds, interest, rent, dividends or profits derived from any source whatever. Very few items of income are exempt.

Deductions include ordinary and necessary business expenses, interest paid or accrued on indebtedness, taxes of all kinds except Federal income and excess profits taxes and assessments for local benefits, losses actually sustained, debts ascertained to be worthless and depreciation on buildings, machinery, fixtures, etc., used in business. A further deduction is allowed for contributions to corporations operated for religious, charitable, scientific or educational purposes or for the prevention of cruelty to children or animals to an amount not exceeding 15 per cent of the taxpayer's net income as computed without the benefit of the contribution deduction.

The taxpayer is not allowed to deduct any personal, living or family expense, any amount spent for improving property or making good its exhaustion for which an allowance is claimed under depreciation.

Figuring the Tax.

Before figuring the normal tax the dividends are deducted as credits from net income, together with the personal exemption. As in previous years, dividends of domestic corporations are exempt from normal tax when received by the stockholder.

The normal tax rates for citizens and residents are as follows: On the first $4,000 of net income in excess of the credits the rate is 6 per cent; on any further taxable income the rate is 12 per cent.

The surtax rates apply to net income of each individual in excess of $5,000. The personal exemption and the dividends are not deductible before computing surtax. In the case of returns by husband and wife, the net income of each is considered separately in computing any surtax that may be due. Form 1040 should be used for making returns of net income exceeding $5,000, and the instructions on that form will show how to figure the surtax.

Business House Returns.

Employers and others who paid wages, salaries, rents, interest or similar determinable gains in an amount of $1,000 or over during 1918 to any person must file an information return with the Government. Blanks may be secured from the Collector.

Every partnership must file a return showing its income and deductions and the name and address of each partner, with his share of the profits or losses during the past year. Personal service corporations will file similar information for 1918.

INCOME TAX PAYS FOR PUBLIC BENEFITS.

"Viewed in its largest and truest sense, the payment of taxes is payment for benefits received or expected. Only from a narrow and essentially selfish and shortsighted viewpoint can the individual propose to himself the evasion of tax liability as a desirable course of action."
—Daniel C. Roper, Commissioner of Internal Revenue.

WHY ONE MORE LOAN IS NEEDED

It Will Settle Nation's War Debts and Will Care for Sick and Wounded.

Once in a while some one asks: "What's the need of another Liberty Loan now that the war is over?"

Revenue from taxes will not be sufficient to pay all the bills, so the people will be called upon to provide the money by subscribing to government bonds. This money is going to pay off the army of producers at home—the farmers, merchants, manufacturers and others.

America had just begun to fight when the Hun decided it was time to quit. Allied leaders expected the war to last another year and the United States government was turning out ships, arms, ammunition and food to overwhelm Germany in one big drive.

Treasury officials have revealed that in 1919 America would have had a tank at the front for every seventy-five feet of line. We would have had ten tons of mustard gas ready for shipment for every ton Germany could produce. Thousands of batteries of guns would have been in action for every one America had in 1918. Everything else was being produced in proportion.

This gigantic preparation brought an early end to the war and saved thousands of lives. Victory Liberty Bonds will pay for this work which had been contracted for and was being delivered when the armistice was signed.

There are other purposes for which money is need. Part of our army of 2,000,000 men must be kept in Europe until the peace treaty is signed. These soldiers must be fed, clothed and otherwise maintained. Then they must be brought home.

The sick and wounded must be cared for in hospitals. The army must be demobilized. There are thousands of maimed soldiers, heroes of the great war, who must be taught self-supporting trades and given an opportunity to earn their living.

This reconstruction work at home must be carried on. The job must be finished. The American people who furnished the money to win the war must supply it also to bring the nation back to a peace basis.

HOLD ON TO WAR SAVINGS STAMPS

Secretary of Treasury Urges Citizens to Keep Government Securities Until They Shall Have Matured.

Carter Glass, Secretary of the United States Treasury, has issued a warning to patriotic American citizens against unscrupulous persons who advertise that they are willing to purchase War Savings Stamps. Mr. Glass does not wish to have the government securities sold at sums below their actual value.

He points out that people who are actually in need of money may take their War Savings Stamps to a post office and receive cash. Mr. Glass urges holders to keep their stamps until maturity.

He states that War Savings Stamps belong only to the individual who first purchased them and that people who offer to buy stamps at low premium are violating the letter of the law in so doing. Men and women selling stamps are not only losing money which rightfully belongs to them, but are aiding unscrupulous agents to reap profits.

BE PREPARED.

"If you think you are beaten, you are;
If you think you are not, you don't;
If you like to win, but you think you can't;
It's almost certain you won't."
