LOCAL MATTERS

Buy Coal Early.—Early buying of next winter's coal is urged by the Fuel Administration. The administration asserted that coal was now more plentiful than it probably would be for some time to come, and the public had better lay in their supply as soon as possible. Chestertown has five coal dealers, who will be glad to take your orders for coal.

Philadelphia Milk Prices For April.—The Interstate Milk Producers' Association prices f. o. b. Philadelphia are as follows: For untested milk, 8c per quart. When tested, price is to vary 4c per 100 lbs. for every 1-10 point of fat above or below 4 per cent. Receiving station price in 50-60 mile zone for 3 per cent milk, $2.75 with above variations for fat.

Undertaker Krusen Gets Funeral Car.—There has been shipped from Chicago to Undertaker W. H. Krusen, of Still Pond, what is said to be one of the finest auto funeral cars ever shipped out of that city. It is finished in black with two sets of draperies in black and gray, and has French bevel plate glass in ventre panels and rear doors, while between the driver's seat and casket compartment is finished with leaded cathedral glass. It has a Laconing Motor and a wheel base of 132 inches, and while it is finished with carved wood panels at front and rear on sides, yet it is not heavy in weight. Mr. Krusen will on the arrival of this hearse convert his present car into an up-to-date undertaker's wagon, thus giving him, with his new Overland five-passenger car just purchased from William Clendaniel, the finest funeral motor equipment on the shore.

Kent Farmers Watching Their Orchards.—Many Kent County farmers are preparing to pay more attention to their fruit trees this season, particularly those who are fortunate enough to have apple trees bearing popular varieties. Apples have been unprecedentedly high this winter, and good apples have sold at prices ranging from five cents each to three or four for a quarter. Consequently, the Kent farmer feels that the price will be high this year.

Our Advertisers.—A number of new advertisers appear in the columns of The Transcript this week. We are proud of our splendid list of advertisers, which speaks for itself of the drawing power of The Trancript. The Transcript covers this county thoroughly and we would be pleased to take the matter of advertising up with the few business firms who have not seen fit to use our columns. Advertising in The Transcript pays is the testimony of our many pleased patrons

Lumber Questions.

"Why should I bother about where my builder buys his lumber? Isn't that his affair?"

Well, remember that you are going to live in the house, and he isn't. It's better to bother now than to be unhappy for years because you didn't.

And remember that a contractor who gets his lumber from a twenty-five-year-old concern is most likely to be a contractor who builds to last.

There are other good lumber firms—we know it; but you will wear out several good tires before you find one better.

No lumber is perfect. At the best you have to take some chances. Why take more than you have to?

Some day you'll build. Build to last. See that the lumber comes from CULP.
