HAMPSHIRE HISTORY MADE IN 1918

The greatest winning ever made by any breed of hogs in the world's history in state, national or other shows was won by the Hampshire breed at the Chicago International in the closing days of 1918. A carload of the hogs had been grown all through the summer on a clover pasture with two ears of corn per head per day. The first of September they were put into a four acre lot with a big, roomy house at one end of it. They were fed on ground rye and wheat middlings in a mash. They were fed all the corn they desired until December 1st. They weighed an average of 391 lbs. per head and were so sensational in finish, size and quality that everyone conceded them to be the grand champions before they were passed upon by the judges. Competing exhibitors, packers and commission merchants said it was the greatest carload of hogs ever shown at the Chicago International. They sold for $21 per hundred or $2.25 per hundred over the top price of any other show car. They dressed 84 per cent of their live weight, or more than 3 per cent above the top dressing quality of any other car of hogs at this show and the nearest dressing car to them was another car of Hampshires.

The Hampshire breed of hogs is a breed with no "kick back." They farrow large litters, their litters develop rapidly and in test cases have outgrown all other breeds at the age of six, eight, ten and twelve months. They have made their history in the hands of poor men and men in very moderate circumstances. It is true some rich men have been promoting them and like them very much, but their history has largely been made in the hands of men who found it necessary to make their own living. In grazing, as well as feeding, they rank at the top in American Swine Husbandry. The Hampshire brood sow insists upon helping her owner do her part of the work; she will farrow large litters of good pigs and raise them; she will gather her feed, grind her feed, make her own bed and carry her carcass to market and top the day's selling prices.

THE CHAMPION CARLOAD OF HOGS AT THE 1918 CHICAGO INTERNATIONAL

We are now offering the public in unrelated stock a few young boars almost ready for service and some gilts that will easily farrow good litters in the fall and the best lot of weanlings that we have ever seen. All of them represent a combination of quality and breeding equal in every way to the best that is obtainable. Our sows are well developed and richly bred, some of them weighing, in ordinary breeding condition, from five hundred to six hundred pounds. The pigs are exceptionally large for their age and are well marked. They carry the direct blood lines of Lookout No. 7499, a $5,000.00 Grand Champion; Messenger Boy No. 6179, many times a Grand Champion of the United States and also Grand Champion over all other breeds; Paulsen's Model No. 24423. A glance at the offerings of the foremost Hampshire breeders will reveal the merit of these blood lines.

The business farmer realizes today as never before that if he is to secure a maximum of pork production, he must feed the best.

The breeder knows that he cannot afford to breed anything short of the best that is obtainable, and this simple fact has done more than anything else to place the Hampshire in the ranks he now occupies.

If you want the foundation of a new herd, we can assist you or if you need a good boar to improve your present herd, we can fill your order. We have anything from a weaned pig to a breed sow. All breeding stock registered in the purchaser's name. Every animal must be exactly as represented. We solicit correspondence and inspection.

HOW CAN YOU TELL YOUR FAVORITE TOBACCO?

As Plain as the Nose on Your Face—Just Smell It

Smokers do not have to put tobacco in their pipes to find out if they like it. They can just rub the tobacco between the palms of their hands and smell it. The nose is an infallible guide to smoking enjoyment.

All smoking tobaccos employ some flavoring "to improve the flavour and burning qualities of the leaves", to quote the Encyclopædia Britannica. Naturally, there is considerable difference in the kind of flavorings used, and the nose quickly detects this difference. TUXEDO Tobacco uses the purest, most wholesome, and delicious of all flavorings—chocolate. And the almost universal liking for chocolate in a great measure explains the widespread popularity of TUXEDO Tobacco.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.
