THE TRANSCRIPT

Published Every Saturday Morning at Chestertown, Md.

NOW that the mayoralty fight has been settled in Baltimore the politicians are turning their attention to the governorship. There will be a governor, attorney-general and comptroller elected this fall. It is to be hoped strong and well equipped men will be selected.

MR. WILLIAMS, Democrat, was defeated for Mayor of Baltimore on Tuesday last by Mr. Broening, Republican, by a majority of 9,000. Mr. Williams' defeat was unexpected and is very unforunate for the Democratic party of the state. The Democrats control both branches of the City Council.

There's a Tractor in the Avery Line that is just the size you need. Avery Tractors are built in six sizes. The little 5-10 H.P. Avery Tractor that makes motor farming a success even on ten-acre farms. Then there are five larger sizes of Avery Tractors from 8-16 H. P. to 40-80 H. P. There is no farm too big and none too small for an Avery Tractor.

Why Avery Tractors Lead

The Avery Tractor is different from other tractors. It has a perfected opposed motor, with renewable inner cylinder walls, gasifiers that turn kerosene into gas and adjustable crankshaft boxes. It has a round radiator, with no fan, belts, pumps, chains, or other such parts. It has a patented sliding frame which makes possible the simplest and most efficient belt and drawbar transmission system built. That is why the Avery design has proved so successful. That is why there are Avery Tractors which have been working in the hands of owners for many years and are still good for many more years of hard work. The words "Avery Tractors" and "Motor Farming Success" mean the same thing.

You should investigate what motor farming with Avery Tractors can do for you. Come in and let us talk about the matter and look over the sample tractors we have on our display floor.
