CULTIVATORS

Have you ever looked over the "I. H. C." No. 4 CULTIVATOR?

Then you have missed seeing the most complete riding cultivator. What we might say will not convince you half so quickly as what the man says who has one. We will give you the names of persons who use them, then see what they say. They can be adjusted for a wide or narrow row in only a few minutes time; will work closer to the crop being cultivated, and are long lived. Come in and look one over.

BUCKEYE RIDING CULTIVATOR

This is the independent tooth and is so well known that it is hardly necessary for us to take space to do more than tell you we have them on hand and the price is only $55.00.

We carry several styles of teeth for Buckeye Cultivators.

Binder Twine

When you go in the harvest field you want to avoid all unnecessary trouble. One to avoid is bad twine. Avoid twine trouble by placing your order now for McCormick Standard. Every ball is guaranteed or your money will be refunded. There are some twines on the market that do not run regular in size and they do cause trouble in the field. We wish to advise you against buying anything but the best STANDARD TWINE.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
