TIBET OPEN TO CHRISTIANS

Officials Have Invited Missionaries to Enter Freely Into the "Forbidden Land."

Those disciples of Christ who interest themselves in foreign missions are aroused over an invitation coming to American disciples from Tibet, according to the Boston Evening Transcript. This land, occupying the "roof of the world," has heretofore been practically closed to all foreigners. That it has been so was due, so Tibet officials tell American disciples, to the influence of China. Now Tibet has thrown off Chinese control and one of its first acts is to appeal for Christian missionaries. The disciples have a mission station at Batang, one of the farthest west cities of China, nearly 3,000 miles up the Yangste river.

A venturesome American doctor, sent out by the disciples, journeyed 18 days farther west, getting into Tibet and into a city wherein disease in its worst form, unattended and not understood, ravaged the people. The doctor set up an impromptu clinic and dispensary. The relief was so great that one of the highest civic officials in all Tibet begged him to stay, or if he could not do so to return, build a hospital and official Tibet would help him.

Now the disciples argue that here is a call they are not at liberty to ignore. Their missionary society has acted to this effect. An appeal has been made for four families, two of them physician families, to go. It is said there are no hospitals, no churches, no schools, no Christian agencies of any kind in that country of 4,000,000 people. American manufactured goods are beginning to reach Tibet and Scotch whisky has been there for a decade or two.

OLD BOXER DIES ON FIELD

Dick Burge, Once Well Known in This Country Met His Death Fighting in France.

Late Private Richard Burge of the First Surrey rifles never was a quitter, and, despite the fact that he was at the half century mark, he enlisted and died the death of a soldier. He was once the lightweight champion of England, and was born December 19, 1865.

Dick Burge was a name well known to the fight fans on both sides of the Atlantic 20 years or so ago, chiefly because of his remarkable battle with Kid Lavigne for the lightweight championship of the world. Dick was several inches taller than the Saginaw Kid, and he had a considerable advantage in weight, but, much to his surprise and that of the English fans, he was knocked out in the seventeenth round. He gave a good account of himself before he fell, however, and there were times when the Kid had reason to fear that he had taken on too good a man. After Burge quit the ring he became a fight promoter. That was in 1900. He enlisted as a volunteer in the British army in 1915 and served with the colors for three years. —Detroit Free Press.

Rulers With Business Instincts.

At the outset of his imperial career the grandfather of the former German kaiser, Frederick William, owed his accumulation of money to his commercial dealings. One of his commercial undertakings was to start milkrounds, which did exceedingly well, in spite of being carried on sub rosa, for the German courtiers found that the imperial favor was dependent upon their patronizing the imperial dairy. In this way the old emperor created a huge milk monopoly in various cities, and reaped a correspondingly large profit. Kaiser Wilhelm himself had keen commercial instincts, and had a finger in most of the big German undertakings. In Germany it was currently reported that Ballin was merely the figure-head of the North German Lloyd line of steamships, and that the kaiser was the real man at the helm, and the same thing was said of many other money-making concerns.

Avery's Pride.

Conservative—By the way, Avery, I understand you want the universal franchise!

Avery—Yes!

Con.—Why, man, do you want your wife to become a politician?

Avery—It isn't that exactly. Fact is, she has always been a—politician.

Con.—Well, what is the reason?

Avery—Pride, pride, my boy—pure, brute, male pride!

Con.—How so? I don't see the connection.

Avery—I don't like the idea of being married to a human being who is classed with the idiots!—London Tit-Bits.

United States' Fliers.

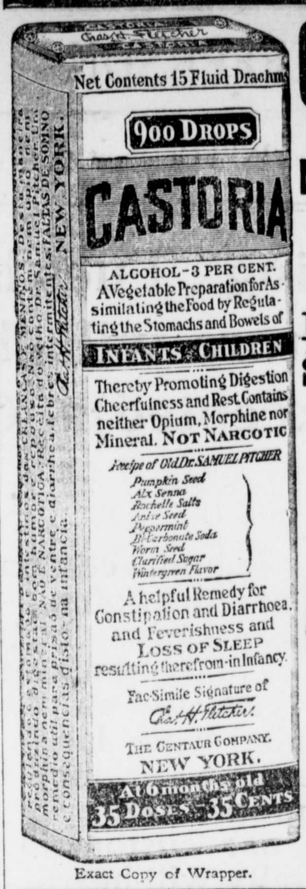

In his recent annual report Maj. Gen. William L. Kenley, director of military aeronautics, states that 4,980 men had been graduated as reserve military aviators, the first rating for pilots, by June 30, last, with 110 bombers, 85 bombing pilots, 464 observers, 889 observer pilots, and 131 pursuit pilots. In the year ended last June 30 there were 152 fatalities in training, or an average of one death to 2,684 hours and 201,000 miles flown. Stalled engines, usually due to an error of the pilot, caused 86 deaths; collisions, 30; and sideslips, 10. The report goes on further to state that 440 balloon officers also had graduated, 155 of whom were fully qualified observers during the year.—Scientific American.

Eight to Eleven Acres a Day At Less Fuel Cost an Acre

That's the satisfactory result that users of the dependable Waterloo Boy Tractor get in plowing.

It's a "three-plow" tractor under usual field conditions—a dependable source of power that keeps three furrows turning steadily round and round until the plowing is done.

It's a tractor you can use to full satisfaction in pulling your other tractor implements and in operating belt machines.

Up to its rated capacity of 12 H. P. at the draw bar and 25 H. P. at the belt, it will do any of the farm power work that horses or heavy duty stationary or portable engines can do—plenty of reserve power for emergencies.

It burns kerosene perfectly. No motor trouble, delay and expense from imperfect combustion. Saves many dollars in fuel cost. Every drop of kerosene is converted into pure gas by its *patented* kerosene manifold—no mixing of kerosene and lubricating oil—no carbonizing of cylinders or fouling of spark plugs.

The powerful two-cylinder motor with big bore and long stroke, perfectly balanced on a solid foundation runs at a moderate speed *with no vibration*. Gives full power without racking mechanism.

Through detachable protecting plates the working parts of the motor, the transmission and differential are easy to get at to adjust or repair from a standing position.

The Waterloo Boy Tractor Gives Dependable, Economical, Satisfactory Service. Come in. We Want to Show You Why
