OUR FIRST MID-SUMMER

CLEARANCE SALE

We are today in a position to reduce our prices far better than usual times In the first place, we have purchased a tremendous large stock from J. M. Blaustein, Rock Hall Md. Still having $5,000 worth of goods left to dispose of, which was bought at 50 cents on the dollor at the old prices.

Now, on the other hand, in order to get this new firm of Frank Kline & Co. started, a great number of the larger wholesale houses sold us goods at a far lower price than the present market.

For Dependable Merchandise Our Prices Can't be Beat.

ANOTHER TROLLEY TALKED OF

Proposed Line To Run Down Eastern Shore, Starting At Rock Hall

Gov. Harrington of Maryland has announced that plans for the construction of a trolley line down the Eastern Shore are under consideration and will be pushed by him and others interested in the project.

The route outlined is as follows:

Ferry from Bay Shore on the Western Shore to Rock Hall on the Eastern Shore. From Rock Hall to Chestertown, to Centreville, to Denton, to Vienna or Sharptown, crossing the Nanticoke river at one of these points, and thence to Salisbury, the terminus as now contemplated.

Rock Hall is preferred as the terminus of the ferry on the Eastern Shore, as it is a land-locked harbor and is more free from ice than any harbor directly on the bay.

Motive power may be drawn from the Susquehanna river or may be obtainable by damming the numerous streams which cross the peninsula. The route outlined crosses the rivers at their narrowest points.

The question of financing the project has not yet been taken up. In the state treasury there is now available the sum of $36,000, the remnant of an appropriation of $300,000 by the state over 60 years ago for the construction of a railroad southward from Elkton and lying wholly within the state of Maryland.

A trolley of this nature would be a great thing for this section of the state, but we have got to see something definite done in the matter before we build too much on the project.

What Does the Prohibition Code Prohibit?

There is so much misinformation about the provisions of the Federal Prohibition Code, that it will be of value to know just what the Code does not prohibit, said Wayne B. Wheeler, General Counsel of the Anti-Saloon League of America. It does not not pevent the possession of intoxicating liquor in a private dwelling if the liquor was secured before the law goes into effect. It does not permit a search warrant to be issued for such liquor in a private dwelling. It does not prevent the sale of alcoholic liquors for non-beverage purposes such as medicinal, mechanical, art, scientific, industrial or any other such purpose. It does not prohibit the manufacture and sale of soft drinks containing not more than one-half of one per cent alcohol by volume. It will not interfere with the sale of alcoholic extracts, under the proposed Amendment from the Judiciary Committee, unless they are sold for bevearge purposes. It provides complete machinery for the development of the industrial alcohol industry. It does prohibit the manufacture, sale, transportation, exportation, furnishing, receiving or posession of intoxicating liquors except as authorized in this act. It does specifically authorize in Section 35 of the act that liquors secured before the law goes into effect may be possessed in a private dwelling. This provision is more liberal than those found in the laws of the prohibition states. The liquor cannot be seized even though the home is turned into a speak-easy. Liquor in a home which is a speak-easy should be subject to seizure. In this respect it should be and doubtless will be changed.

Every section of the proposed bill except the one last referred to, has been tried out in the State and found to be necessary if the law is to be enforced. The effort to make it appear that the law is drastic is a part of the brewery propaganda. The friends of prohibition will not ask for unreasonable or unprecedented provisions.

A Big Celebration In Fifth District

Wednesday evening, July 16, was a date long to be remembered by the people of Rock Hall and the entire 5th District. For a year or more all eyes were turned to the boys "over there" and every one was waiting for the day when "Sammy" should come marching home again. After they began to return, July 16 was settled upon as the date to greet the boys and so committees from the various organizations got together and arranged for a big time. Even when the rain came it did not put a damper upon the loyal ladies who gathered to prepare the feast for our boys. They killed the fatted pig, the chicken and goodness knows what else—everything eatable that anyone was able to get hold of. The ladies secured a big portion, for it was not the Prodigal Son, but the Returned Hero Son. At about 6.30 p. m. the soldiers, sailors and marines, escorting their wives or sweethearts, entered the handsomely decorated school room and were seated at the tables to enjoy a feast a kind seldom sees, let alone eats. After the supper ice cream and cake were also served and the young folks listened to Rev. T. C. Smoot's address of welcome and went off to capture the town. The evening's pleasure ended with a dance in the Jr. O. U. A. M. hall.

Hats off to our boys who made good both "over there" and "over here" in the cause of humanity. Hats off also to the workers who greeted the boys as well as any section of the county has.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

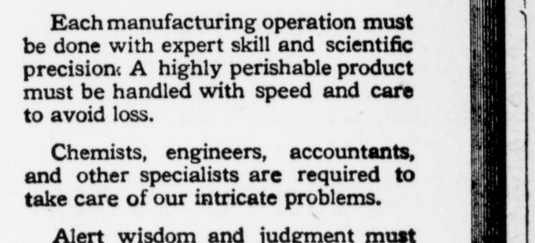

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you.
