Seed Wheat

The possibilities of a crop of wheat are wrapped up in the seed planted. We have been very unfortunate in Kent County this year with our wheat, but the question is this: Shall we plant the small, pinched grains of low vitality? or shall we pay a good price for good seed wheat?

Th crop next year in our county may be a bumper crop. Yet poor seed wheat will mean a poor crop however favorable be the weather and other conditions. On the other hand, strong seed wheat may endure hardships and yet produce a fair crop. Farmer friends, there is but one answer; that is, plant good seed wheat even if it costs big money.

The County Agricultural Agent, Mr. Horace B. Derrick, has requested twenty some samples of good seed wheat from Harford County. Some of these samples have arrived and the cost of same. These may be seen by any farmers in the County Agent's office in the Court House.

The County Agent will be glad to see you in regard to this or any other agricultural question.
