THE Democratic State platform adopted at the convention in Baltimore on Thursday is one of the strongest ever adopted by any political party in this state. It promises to the people the merit system of economy in the state administration. There is ample room for economy in the abolishing of many expensive and useless commissions as well as petty offices. The taxpayers are taxed to death to support high salaried officials of state commissions, many of which could be abolished to the advantage of the people and to the state. With the establishing of the merit system this can be done and should be done. With this in view a new issue has been given the voters of this state and an issue we believe that will appeal to the average man and assure a Democratic victory in November.
