FAMILY

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga .- Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I

lot of days in bed." Thedford's Black-Draught has been in use for many years in the treat-ment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. ness, constipation, indigestion, etc., and unless something is done, serious

trouble may result. Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's, the original and genuine. E 79

> Twelve-Week-Old Pullets. - Thousands of pullets that are started, feathered and on the way to full development will be wanted in the months of June, July, August and September. A ture the assertion that an advertisement to the effect that a person had 12-week-old pullets for sale would bring such results in Kent county that? it would be impossible to supply the demand. Very few poultrymen are able to hatch all the first-class pullets they want or need. Upon this hinges their success or failure in the business and the man who can raise all the pul-EDICINE and the man who can raise all the pullets he wants is indeed rare. As a consequence it is almost impossible to buy thoroughbred pullets from the poultryman, unless you pay almost a fabulous price, which makes the raising of them unprofitable.

Red Mites .- Now is the time when poultrymen must pay a strict heed to his hen houses to see that red mites do not get a hold there. This is one thing that is hard to combat, unless one has the proper remedy. All the usual disinfectants can be used with but little effect on red mites. These ren complained of headache, usually vermin take up their abode on the roosts and dropping boards in the day time and at night creep on the hen and the trouble. Often in the suck her blood, making her weak and Spring, we would have malaria and unprofitable.
