TO OUR WATER TAKERS

Price of Water By Meter:

For the first 15,000 gallons.....30c
For the second 15,000 gallons....25c
For the third 15,000 gallons.....20c
Balance at 15 cents per thousand

For instance, if Mr. A installs a meter Jan. 1 and the meter starts at naught (o), and when it is read by the Supt. April 1 and it shows a consumption of 10,000 gallons, the bill will be for 10,000 gallons, at 30c, or $3.00, and if you use more, price according to rates mentioned above.

Should Mr. A use from April 1 to July 1 any quantity less than 10,000 the bill will read $3.00. This because the minimum charge for a 3-4 meter, which would be used in above case, is $3.00. Experience has taught us that any family of 4, 5 or 6 persons can use a meter at the lowest charge. There is but one thing to prevent it and that is leaky spigots and other fixtures. Talk to us about it.
