NOW that the time for voters to register is over and next Tuesday will be the date to strike off all those on the registration books that are not entitled to vote because of having moved away, etc., it is the duty of every Democratic worker to get busy and help get the party in good condition for the election on November 8. As far as we can learn, the Democrats made satisfactory gains in the registration, but that is not enough—they must get to work and get things going before it is too late. The Republicans are active and leaving nothing undone; we must meet them, and to do so, we must get busy. We do not mean to infer that the Democrats are not at work, but we wish to spur them on in order that their victory may be decisiye and that every public office in this county will be held by a Democrat.

What Is Satisfactory Telephone Service?

TELEPHONE users want and are entitled to satisfactory telephone service. And our idea of service is something more than the completing of individual telephone messages.

Mr. H. B. Thayer, the head of the Bell System, has said: "Satisfactory telephone service means that the user shall be satisfied."

Service is dependent upon every department of the Company and each individual employee. It requires good operating at the switchboard, good engineering of equipment and facilities, good maintenance of the Company's plant, accurate accounting and unfailing courtesy toward our patrons.

These are the technical requirements of good service. But we are not satisfied to go so far and stop. Our aim is to furnish a service of such a quality that we may be certain it gives public satisfaction.

This is the spirit with which every man and woman in our organization tackles the job.
