PHYSICAL DEVELOPMENT BY TENNIS IN KENT COUNTY

The Kent County Athletic Association Formed At Chestertown, Md.

On Sept. 20 the County Commissioners of Kent Co. granted permission to a committee of citizens for the formation of an Athletic Association to act as the controlling body to develop the plot of land directly adjoining the Co. Courthouse on which the Chautauqua has entertained in the past. The following evening a meeting was held in the Court House for the formation of the Association and plans laid for the completion of the work.

Almost over night, it has seemed, the work has progressed and at this writing it is assured to Kent County that they will have tennis facilities surpassed by none in the state. It was first necessary to pull out several large stumps of trees, then grade it twenty-two inches on one side and fill in the same amount on the other. Some job! But it is finished and now we are covering the entire land with a three-inch covering of the finest mixture of sand, gravel and clay, which will certainly produce a good live playing surface.

There will be three regulation size courts, six feet of space between courts and ten feet of space between side lines and side backstops, with 20 feet of space between base line and rear backstops. A 13 foot high back stop will be erected on all four sides covered with 1 1-2 inch mesh wire—and, lo, the courts are ready for the use of all tennis enthusiasts.

We want to emphasize the fact that the courts are erected for the public use. All that is necessary to secure for yourself and family is the purchase of a membership card at $10 (send same to the treasurer at once). We hope that all tennis enthusiasts from all parts of the county will join the association, as we are looking forward to making 1922 a banner year for tennis. Other clubs from Salisbury, Easton and Cambridge, etc., are looking forward to joining us in tournaments which will be entertaining and helpful to all.

The committee in charge takes this means of welcoming all members and thanking those who have so generously made donations to help along the work. We will shortly publish a list of the members and donors and hope you will join at once.

Committee: Simon W. Westcott, C. A. Goodwin, Stephen Collins, Donald F. Stam, Carl Bordley, Phil Wilmer, Thomas Healey.

Guarding Against Forest Fires—The state and government authorities will make a special effort this year to prevent forest fires. Timberlands of Kent have been very dry, but recent rains have relieved the situation to a great extent. Efforts are being made to impress upon hunters and others who use the woods the necessity of extinguishing all fires and in preventing the firing of the underbrush by matches and cigarettes. Hunters, it is claimed, kill more game by fires started by accident than they do with their guns. Ninety per cent of all fires are accidental in origin, and unless more care is exercised this year great destruction is feared.

White Population Gaining—The white population of Maryland increased 13.3 per cent from 1910 to 1920, while the increase in the colored population was only 5.2 per cent, according to figures just made public by the Bureau of the Census. There was an increase of 142,098 in the white population, with an increase of 12,229 in the colored population.

California Giant Falls To Ground—"The Lafayette," the tallest tree in the Calaveras grove, California, 300 feet high, with a diameter of 30 feet at its base, has yielded to the wind and lies on the ground. This tree was one of the sequolas, those towering redwoods of California, which are the wonder of the world.

—Two hundred couples who have been married since Aug. 1 by Rev. R. T. Westren, the unfrocked minister of Elkton, are not legally wedded, according to ecclesiastical law, although marriages are valid under the law.
