

THE RIGHT GRINDER

No matter for what kind of grinding you want to do we can supply you with the right grinder. If you prefer to grind your corn on the cob or shelled the TYPE "D" International will do the work. This grinder is equipped with revolving knives which cut up the cobs so that when the material reaches the grinding plates it is of just the right size to be readily pulverized into feed.

Why not drop in when you are in town and let us show you an International Grinder. We also sell the old reliable New Holland Mill.

The Ford Runabout

The Ford Runabout needs no advertising. About all we have to do is to tell you we can supply the demand with something like promptness and the selling is over. We have never been able to get enough from the factory to meet the demand and do not suppose we ever will get enough. There are more than four million five hundred thousand Ford cars in operation today, and of this number about three hundred thousand are in foreign countries, the rest right here in America, but we have one hundred and five to one hundred and ten millions of people and it looks from the way demand comes in that we will have to sell that many Runabouts before we satisfy the demand.

It is one great, little utility. It fits into every man's wants, from the physician to the worker in the factory, from the country blacksmith to the millionaire railroad owner, from the contractor and his employees to the millionaire sportsman's entourage, almost as necessary these days as the handkerchief.

UNIVERSAL PRODUCTS

The Standardized Electric Light and Power Plant

Make Your Home Comfortable For Your Wife

A Universal Products Plant Frees Women From the Dreary Drudgery, Which is Really Un-American

TAKE the family washing and ironing, for instance—two of the hardest, most depressing tasks American women have had to endure. The Universal Products plant frees the women of the home for all time from the dreaded "blue Monday."

Here is power for many uses in the home and on the farm—for churning butter, doing the sweeping, the washing and for pumping water, running the dairy machinery—in fact, for all the round of duties that take so much time that can nowadays be put to better use.

And there are hours gained for leisure and comfort and grace of living. Bright, cheerful, genial light—evenings pleasanter, the family happier and everybody more comfortable at home.

Universal Products Light and Power keeps workers contented. Its labor-saving economy enables them to actually accomplish more 365 days in the year.

Let us show you this simple, economical plant. It costs less than you think. It produces more than you believe possible. Let us demonstrate some of the 1700 things it will do for you.
