Forming Good Reading Habits

If parents wish their children to form good reading habits they must first form such habits themselves. And there is no better way to do this than to bring into the household a periodical that will be of interest to every member of it; that will supply the best reading for old and young. Among the periodicals of this description The Youth's Companion is unique. Not only does it aim to entertain and inform boys and girls in their teens, as its name suggests, but there is not a page in it that parents can pass over with indifference.

The 52 issues of 1922 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth Companion—52 issues 1922.
2. All the remaining issues of 1921.
3. The Companion Home Calendar for 1922. All for $2.50.
4. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only $3.00.

Second Crop of Apples

The Queenstown News says: Queen Anne's county is showing s nething that has never before been own in the line of a second fruit cr it is no uncommon thing for the count to have a second crop of bloom, w does nothing, but this year the unus ual spectacle is being presented of this bloom maturing in a second crop of apples, a number of which have been on exhibition. In a number of cases the apples have attained the size of black walnuts and are still growing and col- oring. Nor are they confined to any one particular variety as one farmer said his were what are known as the "June" apple, and another stated his were winter apples. Specimens have been left here from the farms of E. Scott Clough, near Bridgetown; the farm tenanted by Norman Mason, of near Ruthsburg; and the farm tenanted by Aquilla Usilton, near town."
