Warned Against Home Brew

For some months past the health officer of Talbot county has been warning the people against drinking the different brews of wiskey and other home-made concoctions, as being extremely harmful to man. He claims that the home brew is green and the dangerous poisons do not get a chance to evaporate before consumed. As a result ,this poison plays havoric with the kidneys and other vital organs and he predicts that in a few years time if the conditions keep up, men will not live to be very old.

A study of the vital statistics of the country for the past year shows that more people died from kidney trouble than from any other cause.,,Just how much of this is due to drinking home brew, of course, is impossible to state. From all causes there were 281 deaths in talbot county against 455 births.

Of the deaths 170 were white and 111 colored.,Of the births 281 were white and 174 colored. Of the white people who died 74 were males and 69 females.

There were 25 more white males born than females, while in the colored race 22 more females were born than males. ,,In the birth statistics there is recorded the birth of four sets of twins, all white. In the death records it is seen that March, July and September each had 30 deaths, topping the list A white woman aged 95 died at Wittman during the year. She is the oldest person to pass away in that time.

—On Tuesday night the members of Washington Camp, No. 34, P. O. S. of A., presented Messrs. C. F. Wheatley, recording secretary, and Mr. Virgil W. Kendall, financial secretary, each with a fine fountain pen. Mr. A. E. Culver made the presentation speech.
