R. H. SOULSBY,
Gen'l Frt. & Pass. Agent.

BRICE'S MILL

JOSEPH BRICE, Proprietor.

Bake things he likes with FLAVO FLOUR. It's healthful and tissue building. There is more nutrition and a sweeter taste in FLAVO FLOUR. It is made with a new process by the most modern mill in the world. Nature's food values and the delicious flavor of the wheat are not milled out as they are by other methods. FLAVO FLOUR is milled at home from home wheat. It is good. Buy it and patronize Home Industry.

HIGH COST OF OFFICES

It Requires 42 Cents To Get Each Voter Of The Major Parties To The Polls To Vote

Forty-two cents was expended by the two major parties to get each of the Maryland voters to the polls in the Senatorial election last November. This does not include amounts spent by candidates in the primaries.

Official statements of campaign expenses for the general election alone, filed in city and counties, show this was the cost of the 300,528 votes polled by William Cabell Bruce, Senator-elect, and Senator Joseph I. France.

The money was spent, in general, in speaking to the voter, supplying him with campaign literature, influencing him through advertisements and transporting him to the polls.

The aggregate expenditure of the Democratic and Republican parties was more than $127,000, according to reports filed by the various treasurers and political agents.

Of this sum, about $79,000 was spent in behalf of Mr. Bruce and the Democratic Congressional candidates, the sworn statements of the treasurers indicate. The Republican expenditure for Senator France and his running mates was reported as approximately $48,000.

Despite a state law requiring sworn statements to be filed by all treasurers within 20 days after a general election, no statements have been filed in several counties.

As shown in these statements the expenditures of the two parties were divided as follows:

	Bruce Dem.	France Rep.
Personal	$1,182	$11,793
Baltimore City	16,508	27,120
Kent	638	861
Somerset	1,000	1,002
Montgomery	532	1,660
Allegany	2,374	2,130
Wicomico	592	1,655
Washington	1,370	2,870
Baltimore County	1,716	4,185
Cecil	783	....
Dorchester	1,199	1,174
Carroll	1,017	1,028
Charles	4,548	250
Howard	640	1,084
Worcester	*500	1,100
Frederick	1,543	2,713
Calvert	792	300
St. Mary's	900	750
Harford	880	1,695
Garrett	....	489
Talbot	807	1,812
Caroline	1,435	....
Queen Anne's	....	....
Anne Arundel	....	....
Prince George's	....	....
Campaign Committee	....	*3,568
Carroll	1,0'7	1,028
Totals	$44,836	*$74,102

*Amounts quoted from personal statements of France and Bruce do not include contributions to campaign committees, which were accounted for in other reports. The Republican expenditure for Worcester county is unofficial.

How People Are Mistaken

People as a rule are inclined to believe that the discovery of the New World gave to the old a multitude of things hitherto unknown. This is a mistaken impression. This hemisphere possesssed but three things unknown to the old world. They were tobacco, the white potato and the turkey. All other things found here existed in at least a similar form all through Europe, Asia and Africa.

On the other hand the old country furnished us with most of the things we now consider as useful to our civilization. The horse for instance—there were none ont his continent. Most people will tell you, this is not so, for were not our western mustangs wild? This is true, but they sprang from horses lost by the Spaniards in their conquest of Mexico during the early part of the sixteenth century. When our west was opened up two hundred years later these horses were found wild. Originally pure Arabian stock, two centuries of freedom had changed them so that almost a new species resulted. It was these that our forfathers descovered and subsequently tamed.

Smoker Can Use Mile of Cigarettes In Six Years

How long would a mile of cigarettes last a man? Not half as long as you might think, says the Philadelphia Inquirer.

Most cigarettes are two and three-quarters inches in length, so that 23,040 of them go to a mile. If you are a moderate smoker, consuming only 10 a day, you will require more than a furlong of cigarettes a year, reaching the full mile in six years and four weeks. A "chain smoker," with an average of 40 cigarettes a day, burns his mile in 18 months.

The moderate man, with his 10 smokes a day, will use about 8 1-4 miles in 50 years. The total weight would be 500 pounds, and the paper in which the cigarettes are rolled would be sufficient to cover a wall 100 yards in length and 28 feet high. If this 50 years' ration were served out at one time a 40-a-day man he would require a cigarette about thirty-five miles in length and weighing almost a ton!

Most smokers get about 50 puffs, each containing a quarter of a cubic foot of smoke, from a cigarette. If we take it that every cigarette represents 12 cubic feet of smoke, we find that even a moderate man will have blown into the air at the end of his 50 years a cloud of smoke containing no less than 2,184,000 cubic feet. The smoke would fill a building 350 yards long, 100 feet wide and 20 feet high, or cover 5 acres of ground with a dense fog 10 feet in depth.

If all the matches used by one person could be made into one huge "safety" it would be a foot square and five feet in height, with a head as big as four footballs rolled into one.

Shoe Shop

Having opened an up-to-date Electric Shoe Repairing Shop in Chestertown, where I am prepared to serve the public with the BEST in Shoe Repairing at the LOWEST OF PRICES.

I am here to please the public. Give me a trial—you be the judge.
