SCOUTING AND CITIZENSHIP

Movement Inaugurated On Eastern Shore Gives Promise Of Being Very Successful

Scouting is a comprehensive, vital force, always finding expression in the Golden Rule. It broadens views, increases abilities, enriches and purifies character. Its chief foundation stone is co-operation. By its very nature it is unselfish, therefore, it cannot exist alone but requires all to share it.

Scouting understood and lived establishes in their minds the Father-of God, and the Brotherhood of man, which is "on earth peace, good will to men."

Scouting, standard of measure for action and relations is the Golden Rule, never the rule of Gold.

Scouting teaches and developes fellowship which is the Golden Rule in action, the motive power of human engineering, the life blood of service, and establishes equal opportunity for all.

Each Scout organization must work out together as a unit the problems of the day in such a way that each member feels that he is a co-worker in the great cause of rendering serfice to mankind.

Scouting is the lever which elevates the boy and establishes his relations which unfold a wealth of affection a tenderness not merely talked but lived and felt. So it is readily seen that scouting is not limited to any race or nation, latitude or longitude, but it is universal in its adaptation and bestowals. Its language an honest heart, a cheerful smile, and a hearty handgrasp. These spell friendship in any language.

Believing in and loving one another and being willing to serve each other is the right in the heart of scouting.

Service The Big Idea Of Scouting

Service, to be service, must be unselfish, expressed in safety, efficiency, and economy, with character building as its goal, which enables one to profit with his fellowmen and community, but never at their expense, to live in a community but not on it.

Scouting always figures how much it can share and not how little it can give.

Scouting teaches you that you cannot receive anything with a closed hand, you must open it first. This makes evident that the hole you make in giving is the hole you must receive through.

People who give little, however, the Scouts, troops, or organizations who render big, broad, loving, service, and have a true sense of service, to his fellowman, make a big hole in giving, and therefore receive accordingly. Consequently, it is plain that we cannot take or buy our blessings; we can only provide channels through which they come to us from the one source of all blessings—God.

Scouting is progressive, gives big vision, and high ideals. Scouting functions the work of head and hand through the heart.

Scouting teaches boys to be friends, brothers, co-workers and constructive harmonizers. Scouting finds expression in the boy in helping and making him physically strong, mentally awake and morally straight.

A scout is trustworthy,loyal,helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, and reverent.

Honesty of purpose and truth of character are expressed in direct proportion to the overcoming of self. Scouting teaches victory over self rather than of self. Therefore, making every experience an opportunity for good.

Training Is Fundamental

At the age of twelve a bof comes into contact with the world away from the immediate love and tender watchfulness of his mother and father, and it is vitally important at this point that he should be surrounded with the most wholesome influences and associations. The Boy Scout movement has been described as the process of making real men from real boys, with a real program.

The conservation of boyhood is the foundation upon which our civilization is based, and the scout program enables a boy to thoroughly enjoy his today in constructive ways that protects his tomorrow.

What is Scouting?

Scouting is a program offered to red-blooded boys with the big outdoors as a background. It appeals to the boy and it leads from the unguided and often vicious play of the streets to the healthy, happy practical things of nature. It insures loyalty to God and country, a helpfulness to other people at all times, and obedience to duly constituted authority. A good scout is efficient in first aid, life saving, signalling, tracking, cycling, nature study, woodcraft, camping, chivalry and all of the handicrafts.

—Centreville people saw a robin and several blue birds on Tuesday, which causes a belief that spring is fast approaching.

MILLINGTON

Mrs. Jane Wilson, aged 85 years, mother of County Treasurer Leonard Wilson, fell in the floor of her home on Saturday night last and fractured both bones of her right arm at the wrist. Just then Mrs. Wilson happened to be alone in the house. She was not sleeping well and about 1 o'clock she got up intending to sit a while by the fire, but owing to some trouble she has had with one of her limbs, she fell in the floor and fractured her arm. As the night was cold and her fire low, she could not move herself to get back in bed, so she had to remain lying on the floor until found in the morning by persons passing the house on the street, who heard her groans. She was in a semi-conscious condition when found. She was put back in bed and Dr. Brice called in. He set the bones of the broken arm and now Mrs. Wilson is on the road to recovery, but little worse for her exposure to the cold.

The Chautauqua, which was held in Comegys Hall on Tuesday, Wednesday and Thursday of last week, was well attended and much enjoyed. The concerts, especially the "Victorian Maids," were fine, and every one was well pleased with the lecture by Dr. Frank S. Pearson on Wednesday night, and the drama, "Cappy Ricks," on Thursday night. Through the efforts of the guarantors, under the leadership of Miss Clara H. Bryan, it was made possible for the Chautauqua to return to Millington again next year.

Mr. George H. Dixon returned home last Tuesday, after spending sometime with relatives in Wilmington.

The people of this community will hold a supper in Comegys Hall next Saturday evening, March 3, in the interest of the new fire department to be organized in the town of Millington. It is desired that the people of the communities of Sudlersville, Crumpton, and Massey attend and participate in the organization to be effected.

Rev. I. W. Insley, of Church Hill, will preach tomorrow, Feb 25, at Holy Cross Chapel at 7.30 p. m.; also each Sunday evening next month at the same hour. The public is invited to attend these services.

Mrs. Ella White and Miss Cynthia Nelson returned home on Friday of last week after spending several weeks with relatives in Baltimore.

Mrs. Noel Gross, of Penns Grove, N. J., visited her parents, Mr. and Mrs. John Bottomley, last week.

Miss Catherine Price, of near Lynch, spent several days last week with her aunt, Mrs. J. L. Smith.

WASHINGTON COLLEGE

The holiday that the students were granted on the 22nd of February was transferred by the faculty to Friday, the 23rd. This arrangement has enabled many students to go to Annapolis to see the team play St. John's on that day.
that day.

The standing of the classes in the inter-class basketball league has been somewhat changed in the past week. The Specials, however, have still maintained their lead. The standing to date is as follows.

	Won	Lost	Pct.
Specials	9	3	.818
Freshmen	7	3	.700
Sophomores	3	5	.428
Juniors	4	6	.400
Preps	5	6	.400

find the name on the bag:

then you'll know they are clean, vigorous seeds

When you buy field and grass seeds, look for the Simpson's Purity Brand trade-mark. It is stenciled in large letters on the bag—it's for your protection—it makes seed buying safe. Progressive dealers sell Simpson's Purity Brand seeds. On your next trip to town see your dealer and ask him for Simpson's Purity Brand. Don't accept any other. If your dealer can't supply you, write us and we'll tell you where you can quickly obtain these dependable seeds.

1923

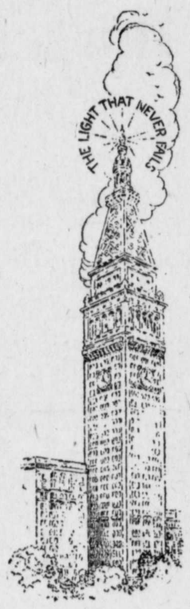

Twenty million people mutually own the biggest life insurance company in the world. It is The Metropolitan.

One person in every six in the United States and Canada is a holder of a Metropolitan policy—one of the safest forms of investment known to man.

Metropolitan policyholders live longer than other people because The Metropolitan takes care of its policyholders.

At the same time The Metropolitan is working in cooperation with private, public, civic, state and national organizations to improve the health and living conditions of every man, woman and child in this Country and Canada.

1923

Why Metropolitan Policyholders Live Longer—

Metropolitan has distributed 272,000,000 booklets and pamphlets dealing with health and longer life.

Metropolitan nurses have made more than 16,000,000 free visits to its Industrial (i.e., weekly premium) Policyholders.

Metropolitan extends free periodic medical examinations to holders of Ordinary (i. e., other than industrial) policies.

Metropolitan, working with National, State and Local Health Agencies, is waging a war on Tuberculosis and other preventable diseases.

Life expectancy among Metropolitan Industrial Policyholders has been extended 8¼ years since 1911.

Metropolitan Life Insurance Company

Incorporated by the State of New York. A Mutual Company.

HALEY FISKE, President FREDERICK H. ECKER, Vice-President

Business Statement, December 31, 1922

Assets — More than those of any other Insurance Company in the World	$1,259,850,325.23

Why Metropolitan Policyholders Live Better—

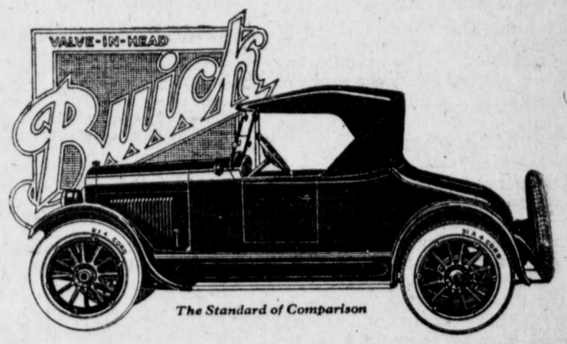

The Metropolitan Agent is a friend to the families he visits and helps them in case of sickness.

17,000 Agents visit the homes of 17,000,000 Industrial Policyholders weekly—telling them of the value of sanitation, fresh air and sunshine.

Among the useful booklets distributed by the Agents are those telling how to buy food, how to care for food, how to cook food, how to provide wholesome, nourishing food for the least money.

A Company is Great only as it Serves.

Haley Fiske.
President.

The Standard of Comparison

As Good As It Looks

A glance at this beautifully proportioned two passenger four-cylinder roadster is an invitation to get behind the wheel.

The speed and power suggested by its graceful lines and low-hung body are fully realized on the open road. And its ease of manipulation and instant response to the throttle insure unusually satisfactory behavior in traffic.

It is roomy and comfortable for two people. It contains every convenience for easy, restful motoring in any weather.
