Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

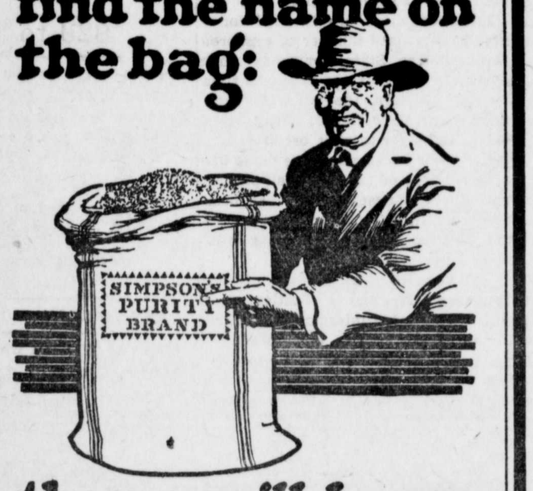

Chas. H. Fletcher

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

find the name on the bag:

then you'll know they are clean, vigorous seeds

When you buy field and grass seeds, look for the Simpson's Purity Brand trade-mark. It is stenciled in large letters on the bag—it's for your protection—it makes seed buying safe.

Progressive dealers sell Simpson's Purity Brand seeds. On your next trip to town see your dealer and ask him for Simpson's Purity Brand. Don't accept any other. If your dealer can't supply you, write us and we'll tell you where you can quickly obtain these dependable seeds.

POULTRY

ITEMS CONCERNING THE CARE AND TREATMENT OF LARGE AND SMALL FLOCKS THAT WILL INTEREST OUR POULTRYMEN

There are losses from time to time in the poultry business as well as in other lines of production. It is foolish to suppose that there are not. The poultry raiser is dealing with live units of production, the fowls. Their bodies are subject to the effects of environment and to possible infection by the organisms that create a diseased condition. Especially in these days when the business poultryman is pushing his hens for as large an output of eggs as he can secure from them, must he expect that they, as machines, will show some wear and tear as time goes on and their capacities to produce diminish.

Millions of dollars are lost in the poultry industry every year in this country due to the entrance of poultry disease into the pens and yards where in the laying fowls are kept. A great part of this loss is accumulated through the lowered egg production which accompanies and follows in the path of disease. True, of course, disease causes a certain great mortality and actual loss of the fowls themselves. A very considerate proportion or percentage of these losses could be saved, if a greater effort were to be made by the thousands of poultry owners everywhere, to diagnose the cases of poultry diseases as they occur in their flocks.

During the month of March the breeding hens should be mated up. It will take a week or ten days to get birds assorted to your liking.

One of the most important duties this month is to take special precautions in handling and feeding the breeding stock, so as to produce not only a large number of fertile eggs but eggs that will produce strong, healthy chicks as well..

A splendid grain mixture for the breeders this month is equal parts of cracked corn, wheat and oats, which should be scattered in deep liter. If wheat cannot be procured use barley and buckwheat in its place.

See that the drinking vessels are kept scrumptuously clean. Do not allow teh scum to accumulate on them as that in itself will cause sickness.

If you can, produce some unthreshed wheat, oats or rye, mix and tie them in bundles; give one to the hens occasionlly during the winter and they will repay you by increasing the egg yield. They need just such exercise.

See that no cracks or crevices are in the sides of the poultry houses to admit cold draughts and fine snow drifting on the birds while they are on perches.

The mating of fowls means the selection for breeding purposes of such specimens as will eliminate the faults of the flock and more nearly approach the Standard of Perfection. If we had all perfect fowls we would not have the least trouble for as like produces like the youngsters would all be perfect or nearly so, provided of course that they are all properly nourished and cared for. We do not find perfect fowls in our breeding pens and for that reason we must understand something of the laws of heredity, and have a distinct picture in our minds of what we desire to obtain or we may not so mate our birds that we will accentuate their faults instead of eliminating them.

No builder would attempt to erect a building of any consequence until he had before him the drawing showing the dimensions and the style of architecture. Buildings do not happen but are the result of careful planning both as to the general plans and the detailed specifications. The same is true of live stock. The most successful dairymen understand the shape of the dairy cow, and the great producers are the most beautiful. Beauty and utility go hand in hand and the same may be said of he horseman.

KENNEDYVILLE

Miss Elizabeth Dukes, of Chestertown, has been spending some time with her brother, Mr. Bruce Dukes and wife.

Mrs. D. A. Kelley returned home on Saturday from a visit to her home at Annapolis.

Mrs. Henry Boggs spent a few days with her son, Paul and wife at Hartley.

Miss Kathdryn Loller spent the week-end with friends in this community.

Mrs. George Johnston leads the Christian Endeavor on Sunday eve at the M. P. Church.

Those on the sick list are Mrs. Emma Shafer, Mr. and Mrs. William Lipscomb and quite a good many of our school children have Mumps.

Mr. Howard Pennington and Miss Mary Anderson, of Chestertown, were the guests of Mr. and Mrs. Bruce Dukes on Sunday.

Mr. William Fogwell and family, of Church Hill, were callers on Sunday, of Mr. and Mrs. James Weer.

Mr. George Clendaniel spent a few days with relatives during the week

The service in Grace Church, at 2.30 o'clock will be of a special order. Please look in the Church Notes column of the news for information as to the character of this service.

Mrs. Rachel Hill will entertain the Mites Society on Wednesday evening, March 21.

The entertainment given by Galena Sunday School was throughly enjoyed by a full house. Come again.

Rate Schedule P. S. C. No. 10

SCHEDULE MADE AND FILED BY

The Chestertown Electric Light and Power Company

OF KENT COUNTY, MARYLAND.

Pursuant to the Requirements of the Public Service Commission, Showing the Rates, Charges and Regulations Applicable to Electric Service in the State of Maryland.

The following rates, changes and regulations are to be effective on and after March 1, 1923, or as soon thereafter as approval is granted by the Public Service Commission of the State of Maryland.

This schedule is based on the monthly use of electricity, unless otherwise stated.

Bills paid within ten days from dating will be discounted to the net rates shown in this schedule.

The Company reserves the right to discontinue service, without notice, if bill remains unpaid 30 days from dating.

A cash deposit, equal to one month's estimated bill, or satisfactory reference will be required before service is furnished.

The Company reserved the right to refuse service to any building not properly wired.

Customers will be instructed how to read their meters at the office of the Comgany.

SCHEDULE OF METERED LIGHTING RATES.

First	50	Kilowatt Hours at 18c gross		17.1c net

Excess Over	200	" " at 15c "		14.25c net
Minimum Charge per month			$1.25 "	$1.25 net

SCHEDULE OF STREET LIGHTING RATES.

32 nominal candle power lights.....at $20.00 per lamp, per year, net.

This Schedule covers an all night and every night service with lamps lighted from one half hour after sunset to one half hour before sunrise.

The present number of lamps in service may be increased from time to time at the option of the Town Officials at the same price per lamp per year, provided no new lamps be installed more than four hundred feet distant from the nearest street lighting lines in use by the Company.

Bills for this service may be paid either monthly or quarterly at the option of the Town Officials.

SCHEDULE OF METERED POWER RATES.

Demand Charge
$1.00 per Horse Power of Motors installed, net.
Plus Energy Charge

First	200	Kilowatt Hours at 7c gross	6.65c net
Next	300	" " at 6c gross	5.70c net
Excess Over	500	" " at 5c gross	4.75c net

Power customers may be required to discontinue use of service between dusk and 10 P. M. when such service would interfere with the regulation of the Company's service, to the detriment of lighting customers.

This schedule of Metered Power Rates shall apply to all customers applying for service on and after the effective date of "Rate Schedule P. S. C. No. 10" and shall also be available to such power customers previously using power service as shall elect to take advantage of its provisions.

This schedule of Metered Power Rates is not applicable to customers having less than two horse power connected load.

OPTIONAL SCHEDULE OF METERED POWER RATES.
