Random Shots

I shot an arrow into the air, it fell in the distance I knew not where, till a neighbor said that it killed his calf, and I had to pay him six and a half ($6.50).

I bought some poison to slay some rats, and a neighbor swore that it killed his cats; and, rather than argue across the fence, I paid him four dollars and fifty cents (4.50).

One night I set sailing a toy balloon, and hoped it would soar till it reached the moon; but the candle fell out on a farmer's straw, and he said I must settle or go to law.

And that is the way with the random shot; it never hits in the proper spot; and the joke you spring, that you think so smart, may leave a wound in some fellow's heart.
