THE hail storm on Wednesday resulted in a severe loss to many of our farmers. After several years of disaster to farm crops, including hail storms and unusually wet weather, this storm on Wednesday is a real tragedy to the farmers whose crops were injured. They have our sincerest sympathy. It is fortunate that more of our farms were not struck by the hail. Now that the wheat is cut it is hoped that the weather will not interfere with the threshing of what appears to be a bumper crop.

POLITICS are the center of attraction in Kent County at the present time. The fight for the Senate between Mr. W. B. Copper and Mr. William F. Russell has gotten a flying start. For the Legislature, Messrs. Ellsworth Bowers and Columbus Ashley are making a strong fight. Mr. Herbert U. Fletcher has announced his candidacy for the Legislature. For County Commissioner, Messrs. Nicholas V. Walters, J. Ernest Willson and S. J. Johnson are in the race. It is rumored that Mr. Sterling Jones will also be a candidate. For Treasurer, Messrs. George Sutton, J. Raymond Simpers, Merrick Clements and Josiah Massey have announced their candidacy. The office of sheriff also seems to be a popular one, with Messrs. Charles L. Gill, Wm. Steele, Lionel J. Keyser, Adolphus Davis, Wm. Goodman and Albert C. Lewis as candidates. For the Orphans Court no announcements have been made to date, but it is believed that there will be a fight for these offices.

Chestertown's Swimming Places

The old swimming place under the drawbridge across Chester River is the favorite spot for the youngsters of the town during the summer months. This place will be remembered by some of our older townsmen as a spot where many happy hours were spent. Many tales have descended to the present generation of mud battles and swimming feats performed under the old draw.

For quite a number of years swimming was forbidden at this spot by the county authorities on account of the fact that horses crossing the bridge were frightened. Since the state took over the bridge and as the number of automobiles have taken the place of the horse to a great extent, swimming is now allowed theer. At almost any hour of the day the young sporting blood of the town can be found there enjoying a dip.

Rolph's Wharf is another place that has gained popularity as a swimming place and here the ladies turn out in the latest swimming togs and boys and young men also enjoy the invigorating waters of the Chester.

Take Time To Learn

Whistler, the great painter, was asked how long it took him to paint a picture. "Half a day, perhaps," was his reply, "but a life time to learn how." There are too many who are not willing to work a life time to learn how to do their jobs. Better not expect to learn all there is to be learned about the business in which you are interested or any other business in a week or a year or ten years. Be willing to take a life time for it. If you will and will study and practice faithfully all the way through you will be one of the elect. Begin over today. Some new and vaulable secret will be revealed to you before night. So it will be with every day of your life.

AGRICULTURAL ISSUE JULY 28

Farm Bureau Movement To Be Explained To Every Kent County Farmer

Kent County Farmers are engaged in making extensive preparations for an intensive publicity campaign to begin organizewith the publication of a Special Edition of the Kent News to appear July 28th. This will be a part of the State and Nation-wide movement to organize the industry of agriculture into a compact, aggressive, and successful organization.

The Committee composed of J. F. Shahan, E. Thomas Massey, Holt Woodal, Samuel Comly, Merrick Clements, Edgar Pennington, Albert Jervis, Arthur Brice, Sewell Lee, B. F. Rash, James E. Morris, D. W. Ingersoll, Tilden Brice, Jr., Earl Nicholson, and M. P. Edwards met last week and outlined the program of activities in detail.

In the Farm Bureau edition will appear the history of this gigantic organization of agriculturists, its purposes and accomplishments, mentioning those national leaders who are taking an enthusiastic interest in the organization of which, it is believed, will be the means of insuring increased prosperity and improved business conditions for both the farmers and business men that are wholly and partially dependent upon the success of agriculture.

The Farm Bureau already is the largest farmers' organization in the history of the world, having a membership of over a million and a half, organized in forty-eight states and over twenty-seven hundred counties. It is a non-political, non-sectarian organization, organized on the great principle of "live and let live." The individual farmer is the smallest unit, banded into local or community units, which in turn are federated into the county Farm Bureau—County Farm Bureaus into the State Farm Bureau—State Farm Bureaus into American Farm Bureau. In this way the Farm Bureau is builded correctly in the principles of Democracy, which insures its preservation and the confidence of the people.

Every farmer in Kent County, so far as we can procure an accurate mailing list, will get a copy of the Kent Co. Farm Bureau Special Edition.

MAY BRIDGE TWO ISLANDS

Chincoteague and Assateague Project Now Much Talked Of

Possessing many desirable features which make it one of the most desirable sea-shore resorts on the Atlantic Coast, Chincoteague Island still lacks a first-class bathing beach, but with Assateague Island at its front door, the day is not very far distant when another bridge will run from Chincoteague Island to Assateague.

The leading men of Chincoteague believe that the latter island with its fine fishing ground, the best bathing shore on the coast, groves of shade trees and an altogether picturesque quality would soon become a mecca for people, both on the Delmarvia Peninsula and throughout this section of the country.

It is already being visited yearly by people from New York, Pennsylvania and New England, who like the fishing out that way and enjoy the bathing. It would be an ideal place for those who want a quiet vacation.

One of the leading men on Chincoteague recently said that the road could be built for $50,000, that only one and one-half miles of trestle would be necessary and three people would travel to Chincoteague where one comes now.

ANNOUNCEMENT

CHARLES L. GILL.

TO THE DEMOCRATIC VOTERS OF KENT COUNTY, MARYLAND.

Ladies and Gentlemen:

Having recently received several letters from different sections of the county, and having been asked by a number of loyal party people, both men and women, to present my name again as a candidate for the Democratic nomination for State Senator, beg to say that, after a careful consideration concerning this matter, I have fully concluded to do so.

While thus announcing myself, I cordially ask for your assistance and trust that you may be able and willing to give me your earnest and active support. Should I succeed in receiving the nomination at your hands, and then be fortunate enough to win at the polls in November, it will be my pleasure and my pride to discharge the duties of said office with promptness, uprightness and courtesy to all.

My attachment to the party which won my early allegiance has grown stronger with the passing years, and I hope to be worthy of your confidence and endorsement once more. I regard the State Senatorship as an important public trust, but as not pressing any special claims for fitness upon my fellow-citizens in this connection.

Realizing my many shortcomings and imperfections, I humbly await the verdict of my party, and by this verdict I nom promise to abide.

Faithfully yours,
WILLIAM F. RUSSELL.

QUICK ACTION BRAKES
EXTRA LARGE AND EXTRA SAFE

In the construction of Dodge Brothers Motor Car, every consideration has been given to the owner's safety.

This is particulariy evident in the brakes, which, with their 14-inch drums and 2¼ inch lining, are appreciably larger than the average. The extra surface thus provided develops greater friction when the break bands contract over the drums—and it is this friction which stops the car."

Connecting levers are designed to transmit the maximum of power with the minimum of effort. The slightest pressure on the brake pedal has an immediate effect. This pressure is distributed evenly between the two rear wheels by a highly efficient equalizer, which prevents skidding because it retards both wheels simultaneously.

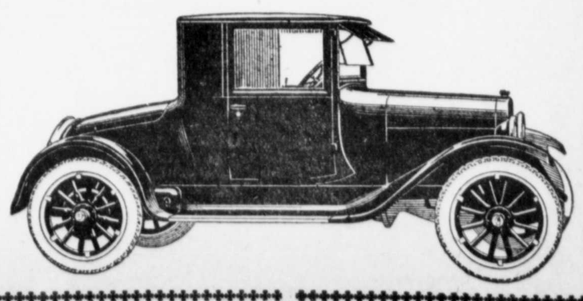

And the brake bands grip evenly all around the drums. This protects the lining against irregular wear and enables the driver to stop quickly, quietly and safely.
