Kent Wins Again

Kent Boys Win First Place In Cattle Judging Contest—Virginia Nicholson, of Chestertown, Won Prize For Knitting

Lee Startt, Martin Sutton and Stanley Sutton, representing Kent County, won first prize of $30 in the cattle judging contest at Easton for boys from 10 to 17 years old.

Six Maryland counties and one Delaware county were represented, and Kent won with a score of 713 points. Dorchester came second with 709 points. Oswald Williams, of Dorchester, won the individual prize with a score of 283 points.

Miss Virginia Nicholson, of Chestertown, daughter of Mr. and Mrs. Harry Nicholson, won the $100 state prize offered in the recent National Knitting Contest held by the Fleisher Yarn Co. of Philadelphia, for the most beautiful hand knit garments. Of the thousands of garments entered by Maryland women, Miss Nicholson's sweater was adjudged the most beautiful from this state.

Murderer Confesses After Forty Years

Stained and brittle from perhaps 40 years of resting in its niche, subject to the elements, the confession of a murderer, Lee Singleton, native of Crisfield, Md., was found in a crevice between the logs of a cabin in Culver Canyon, near Eureka, Nev., by James Thornton, a surveyor, according to word received recently. Lying in the cabin was a man's skeleton, a gold watch, engraved with the initials "L. R. S." and a watch chain, from which hung a large silver nugget fob. In the man's confession he stated that he killed his victim and then put the body in a furnace, where it was consumed by the fire.

Drinks Soft Drinks Into The Billions

History omits the description of many of the interesting things about Methusaleh, among them his liquid capacity. But, says the Department of Agriculture, if he had been given the task of disposing of all the "pop" consumed in this country last year, he would have had to start at birth and down eight bottles every minute of his 969-year span of life. Each year, the department's statisticians declare, thirsty America empties 4,000,000,000 bottles of soft drinks, exclusive of such beverages as near-beers made of cereals. The sparkling flood comes from 10,000 bottling establishments and pour across 110,000 counters.

Recommends That Pennsy Take R. R.

Pronouncing independent operation impracticable, the Eastern Shore Railway Commission Wednesday recommended that the Maryland, Delaware and Virginia railway lines, recently sold under mortgage foreclosure for "junking," be taken over and operated as a part of the Pennsylvania R. R. system.

Accompanying this recommendation are others for extensive improvement to present service, opening up of a new gateway through Baltimore as an outlet for the Eastern Shore territory, and certain modifications in the offer of the Pennsylvania to take over the lines.

Governor Ritchie received the commission's report at a two-hour conference with S. Davies Warfield, chairman, and William M. Maloy, chairman of the Public Service Commission, in the Governor's Office. Governor Ritchie wrote at once to Samuel Rea, president of the Pennsy, asking Mr. Rea to meet him next week in a conference on the disposition of the road.

Attempted To Burn Home

Incendiarism is charged in what is believed to be another of the series of attacks made upon the Rev. J. R. Bickings, of Pocomoke, in the burning of his home with all its furnishings Aug. 18 while both the Rev. Mr. and Mrs. Bicking, confined to her bed by illness, were asleep. Bootleggers and their sympathizers are conceded by the whole town to be the perpetrators of these crimes.

The attempted destruction of Mr. Bicking's boat first by sinking and secondly by burning is still fresh in the minds of the people. They are thoroughly aroused and no effort nor expense will be spared to run down the firebugs.

The fire was seen first by neighbors adjoining the parsonage.

The pastor's wife is now extremely ill as a result of the fire.

Plans Trip To Peninsula

Members of the Eastern Shore Society of Baltimore are planning a two-day boat trip to the shore, leaving Baltimore September 21. Mayor Jackson has accepted the invitation of the society to be a guest and a similar acceptance from Governor Ritchie is expected. Two tentative itineraries are being considered. One includes a trip up the Chester river with a stop at Chestertown, thence to Cambridge, a run up the Choptank and possibly the Tred Avon, with a stop at Oxford. William H. Valliant, a member of the society who lives at Bellvue, across from Oxford, has invited members of the party to be his guests at an oyster roast at his home. The second itinerary provides for a direct run to Crisfield and a cruise in the waters at the lower end of the peninsula, with which most of the members are not familiar.

Mrs. John Jarvis and Mrs. Fred Ford spent several days this week in Baltimore.

Urge Reduction In Winter Wheat

Maryland farmers are urged by the Maryland Farm Bureau Federation to reduce their winter wheat acreage 20 per cent. The suggestion is based on statements of Gray Silver, legal representative of the American Farm Bureau Federation, who insists that the 15 per cent reduction, which farmers have indicated to the Department of Agriculture they would effect, is not sufficient.
