Use Page "Lion Brand" Wovers Wire Fencing

Heavier GALVANIZED-mere elasticiny due to the wave and twist. No "v" CRIMPS to break galvanizing. STRONGER because of stay-wire being ane solid unwrapped piece from top to bottom wire, locked by patented non-slipable knot to line wires, less susceptible to rust, deing mabe from BASIC OPEN HEARTH STEEL. Costs no more. Get your order in before the raise.

Use Our No, 1 Alfalfa Hay.

in place of high priced DAIRY FEED. TRY a half ton and note increased production and quality. Others are saving, why not you?

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

TOWNSHEND, Attorney.
ORDER NISI

Sidney P. Townshend, Assignee,
versus
Clifton L. Jarrell, et al.

In the Circuit Court for Kent County
In Equity No. 2195.

Ordered, this 12th day of July, 1923, by the Circuit Court for Kent County in Equity, that the sale of the mortgaged Real Estate mentioned in these proceedings made and reported by Sidney P. Townshend, Assignee, under and by virtue of Power of Sale in mortgage from Clifton L. Jarrell and wife to Dudley & Carpenter, dated Sept. 30, 1918, and by successive assignments duly assigned to Sidney P. Townshend, be ratified and confirmed, unless cause to the contrary thereof be shown on or before the 15th day of September next;—Provided, a copy of this Order be inserted in some newspaper printed and published in Kent county, once in each of four successive weeks before the 13th day of August next.

The Report states the amount of sales to be $11,500.00.

True Copy:
ROBERT R. AYRES, Clerk.

Test:

POULTRY NOTES

Items Of Interest For Our Poultry Raisers

Poultry require fresh air, sunlight, dryness and room. Of these by far the most important is fresh air. The essential condition of dryness depends much upon free circulation of air. Air and sunlight are nature's best disinfectants and germicides, and if a coop or house is not overcrowded, and the birds are in normal, healthy condition, a properly aired and sunned structure requires much less attention to cleanliness than one that is deficient in these particulars.

Many of the February hatched pullets have begun to lay.

Our chicken raisers should, by all means, keep right on feeding a good laying mash, and, by so doing make their hens lay many weeks before they would if allowed to take their time.

You may be among those who are fortunate enough to have ample free range for your growing stock and older birds, but, even at that, keep the mash hoppers filled.

Don't start throwing bouquets at yourself if the growing birds run after you when you appear in their vicinity. The chances are they are hungry rather than attracted to you by good looks.

It is a bad practice to allow your stock to roost in trees and on old buildings. By doing this you can't keep in touch with them like you should. And, besides, it is a hard matter to round them up in the fall.

Watch your flock on the hot days and give them plenty of water.

Recently we consulted a bulletin issued by the New Jersey Department of Poultry Husbandry on "Egg Production and Costs on New Jersey Farms." The report gives official records of 34 poultry farms, embracing a total of 243,957 hens and laying pullets and their performance from Nov. 1, 1921, to Oct. 31, 1922.

Items Of General Interest

Crown Prince Hirohito, of Japan, mixes freely with the common people and defies the traditions which would hold him sacred.

The Anti-Saloon League was founded by Dr. Howard H. Russell, at Oberlin, Ohio, in 1893.

There has been in this country nearly 3000 child suicides within the last four years. The rate increased from 477 in 1919 to more than 900 in 1922.

Whales are reported plentiful on the whaling grounds. The demand for whale meat has become pronounced.

More than 200 species of plants yield latex from which rubber may be obtained.

Nineteen thousand insects are required to make one pound of choineal dye. Only the bodies of females are used.

The Japanese are not affected by the act of Congress of 1919, granting naturalization rights to any persons of foreign birth who served in the army or navy during the World War. It is part of the settled policy of the United States not to admit any Japanese to ctiizenship.

Emilio Aguinaldo, Jr., the son of the former Philippine rebel leader, was graduated from Phillips Andover Academy recently. He plans to enter the Naval Academy in the autumn.

The Chinese bandits, who kidnapped for ransom many prominent American and European passengers, said they learned how to wreck the train by watching an American motion picture.

A bell, dating back to the time of St Patrick, has been found in the ruins of Nendrum Abbey, in Ulster, Ireland.

What Is News?

City dailies of the United States have carried pages of publicity and illustrations of the big prize fights of the past few months. Contrast this publicity given to these events with the few lines that are sent out over the wires when a railroad places a $50,000,000 order for equipment or material which will give employment to thousands of workmen for months; or when a hydro-electric plant, built at a cost of from $25,000,000 to $100,000,000 turns in the water that makes electric current for thousands of homes, farms and factories; or when a telephone cable is laid at an expense of $35,000,000 from Chicago to New York for the better service of millions of people. Such events may be given a paragraph over the wires.

Busy Lines

When you call a number and the operator reports: "The line is busy," this does not necessarily mean that the person you are calling is actually talking.

It may mean that someone else is calling the same number and the operator is ringing the telephone; it may mean the receiver of the telephone you want has been left off the hook; and it may mean, if it is a party line, that one of these things has happened to ANOTHER TELEPHONE on the line or that it is in use.

Should you receive a "Busy" report and the person called afterwards tells you that he was not using the telephone at that time, PLEASE DON'T CONCLUDE THAT THE OPERATOR GAVE YOU A FALSE REPORT. It may have been due to some of the causes mentioned.

Prolonged conversations contribute greatly to "Busy" lines. It will help us to give better service if lengthy conversations are avoided, particularly if either telephone is on a party line.

It will also be helpful IF THOSE CALLING WILL WAIT A REASONABLE TIME AFTER RECEIVING A "BUSY" REPORT BEFORE CALLING AGAIN.

The Chesapeake and Potomac Telephone Company

(Consult the information pages in the front of the telephone directory)

Summer Schedule

when Water gets in the Crank Case

Trust this live experience!

IN more than a half century's constant study of lubrication we have met and solved many hard problems. To take one for example, why water gets in the crank case and what to do about it.

About a pound of water is formed by the process of burning a pound of gasoline. Most goes out the exhaust—the remainder, always heavier than oil, drops to the crank case. *Clean* oil and water will not stay mixed. *Dirty* oil will emulsify and quickly lose its value. Experience therefore teaches us to manufacture Polarine absolutely clean—to urge you to drain your crank case often and always fill with fresh Polarine of the proper consistency.

Economical lubrication demands a single reasonably priced, widely distributed oil of outstanding quality that solves *every* problem. Polarine is that oil, the built-up result of hundreds of trying experiences. You can safely trust our long, live experience to protect your motor by quality products and sound advice.

The Polarine Chart advises the consistency of Polarine that for your car best combines easy flow, heavy work, lasting wear and low mileage cost. Consult it at your dealer's.

BOARD and TUITION $400.00.

Prospectus for 1923-24 on application

Notice to Shippers

The County Commissioners for Kent County, by virtue of an Act of The General Assembly of Maryland, Chapter 487, passed at its session of 1880, hereby give notice that a uniform charge of one-quarter of a cent per basket will be made for each basket of tomatoes shipped from or over the County Wharves, season of 1923.

There will be no charge upon shipments of wheat, corn or other grains this season.

The County Wharves have been put in usable condition at considerable expense and the Commissioners feel that a small part of the cost should be borne by the traffic.

Kent County.
