CHIROPRACTIC

"A RECORD THAT SPEAKS FOR ITSELF."

Everybody remembers the great "Flu" Epidemic (so-called) of 1918, set verious sections of the country into almost a panic, and which bro untimely death to multitudes.

The newspapers carried glaring reports about the epidemic, but he one thing they did not report.

The following statistics were authentically gathered in several we states, where Chiropractic is better known than it is in the east.

THESE ARE FACTS—NOT JUST FIGGERS

One (1) patient out of every Sixteen (16) Died under medical treatment.

Under the Chiropractic Method of correcting the cause, only one (1) ou of every Eight Hundred and Eighty Six (886) died und the care of Chiropractic who gave absolutely no medicine.

This astounding record proves that Chiropractic is the safest method, and is due to the fact that instead of doping and filling the body with drugs and medicines, the Chiropractor assisted nature to eliminate the poisons in the body by making the organs of elimination work properly, so that normal bodily function could take place.

Chiropractic maintains that the cause of "Flue" or any other disease is inside the body and not due to germs or any thing else from the outside. The cure then instead of pouring medicines from the outside to the inside, consists in correcting what is wrong inside.

If Germs cause disease everybody would have had the Flu. Germs act only as scavengers, and are present only after the disease has made headway. They eat up the waste material, and assist in eliminating scavenger matter from the diseased part. Germs were created with man. They are our friends.

The logic of Chiropractic is demonstrated not only in the Flu, but the wonderful success of this science in correcting the cause of other so-called incurable diseases, such as Heart trouble, Tuberculosis, Pneumonia, Appendicitis, Deafness, Blindness, Goitre, Stomach and Intestinal trouble, and the majority of other human ailments.

All Chiropractic asks is a chance to demonstrate its efficacy. If you are sick and have tried all other methods without results try the method that succeeded 885 times out of every 886.

Consultation and literature without charge.
