SPORTS

(Other Sports on page 3)

On page three will be found a full account of the Washington-Mt. St. Mary's game last Saturday. Today's contest with Catholic University may be an entirely different one. Football teams can often change their entire character in a week. There may be a sudden uplift in physical condition, a sudden change in mental attitude, the return of disabled players—any number of things that can make a vast difference in the play of a team. Add to this the luck of the forward pass and football is about as easy to dope as baseball on the individual game. But who knows what may happen today. It's time Washington was losing its jinx. Mt. St. Mary's lost to Catholic University 6 to 0. Washington may reverse the score. Grantland Rice says

It's all in how the mind is set,
And so it's well enough to know
Most days are rainy, dark and wet
Or wind-swept, with the hint of snow;
And if by chance the sun breaks through
To dance among the fading vines
From just one narrow slit of blue,
It's all the brighter when it shines.

All the seats for the Army-Navy contest in New York Nov. 24 have been taken.

Jack Denault, of the Canadian Royal Mounted Police, is rapidly coming to the front as a contender for Dempsey's crown. But so is Wills, Gibbons and some others!

Armistice Day To Be Celebrated Monday, November 12

Armistice Day, Nov. 11, will be observed this year on Monday, Nov. 12, due to the 11th being on Sunday. The 12th has been declared a legal holiday, and the American Legion, Frank M. Jarman Post No. 36 will celebrate on Monday with the following program:

After this, Sheen's Cavalry will give an exhibition of cavalry maneuvers on horse back.

Monday night at 8 p. m. the Legion Post will hold an oyster scald in the Armory to which all ex-service men and the local Sanitary Corps are invited. At this meeting there will be the annual election of officers of the Frank M. Jarman Post of Kent County.

CHIROPRACTIC FOR Women's Complaints

The great majority of women suffer at intervals during their lives with the ailments peculiar to the female.

When the condition is not very serious, or occurs only occasionally, the average woman will continue to suffer in silence, thinking "it must be," or it is "nature's peculiar course." This is not so! Nature never intended man or woman to be anything else but normal and healthy.

On the other hand, when the condition becomes alarming, the first thought used to be the knife, with its disastrous results. Women, however, are beginning to learn that every part of the human body has a function or part to perform, and that disease (dis-ease), meaning without ease, is but an abnormal expression of the function of some organ or part of the body.

Sick people are now seeking the "safest" method that gets results. Chiropractic is the SAFEST, BEST and MOST ECONOMICAL method of restoring health, without the use of medicine, surgery, electricity or massage. Special adjustments alone. Nothing else is used by the Chiropractor to make sick people healthy.
