Make More Money

FROM YOUR CORN AND FEED

Ground corn goes further and gives better results than Whole Corn says your Government. If it pays to grind some of your corn, it will surel pay more to grind all your feed. We have on our floor Mills of many sizes for this purpose.

The Small No. 6 New Holland Mill to use with the 1½ H. P. Engines.

The No. 6½ New Holland Mill to use with the 3 H. P. Engines.

The No. 10 New Holland to use with the 5 or 6 H. P. Engines.

The No. 10 Type D—I. H. C. Mill to use with 8 H. P. and larger Engines or for use with the Tractor.

It is hardly necessary to say that these Mills all carry the standard guarantee, have been sold very extensively here and are giving splendid satisfaction.

The I. H. C. Mill will grind Hay, Corn, Fodder or any kind of Grain.

We have one used Mill, has 10 inch plates, an extra set of New Plates; fine for 8 or 10 H. P. Engine or Tractor, in good condition, only $35 00.

THE MODERN FUNERAL

The methods and systems in vogue a few years ago, and still adhered to by many, are no longer applicable in this age and generation.

A better understanding of the duties of the funeral director has changed the old order.

One of the most difficult problems confronting the modern funeral director will be solved when the public realizes that SERVICE is the principal, and, in fact, only commodity which we have to offer.

The casket and funeral appurtenances are negligible, or practically so, requiring little or no experience, and, in the matter of expense, consistent with the cost of production.

SERVICE is the main considerataion—the care and disposition of the body of the one who has passed on, knowledge or ability, and a readiness to relieve the burdens of the ones who are left to mourn.

The principal reasons for EMBALMING are: (1) Sanitation, for it is an absolute prevention of communication by infection; and (2) the restoration of color and form.

Embalming is not, as is generally supposed, a lost art. The EMBALMER is a thoroughly trained sanitarian, a student of anatomy and chemistry. In his work he employs none of the crude and barbarous methods used by the ancient Egyptians.

SPORTS

(Other Sports on page 7)

The Chestertown High School team won the soccer championship of Kent county on Thursday.

Washington, after outplaying Lebanan Valley College Thursday afternoon before a big crowd on Washington Field, during the first quarter, when they lost some fine chances of jumping into the lead, came from behind, after Lebanon had secured a seven-point lead, and tied the score with a touchdown and a goal. The second quarter was about even, toward the close the visitors unloosening an effective aerial attack. Shortly after the second half opened, Lebanon Valley secured the ball in midfield on a fumble. A 30-yd. run placed the ball on Washington's five-yard line and was soon pushed over for a touchdown and a goal. W. C. came back strong and, by straight football and forward passes, succeeded in tying the score, Cavanaugh carrying over the ball and kicking goal. Cavanaugh was Washington's best bet, while the two guards, Keenan and Adkins performed well. Crowe made some telling dashes through the line and got away with a brilliant end run, which led to the touchdown. The game was hard-fought throughout.
