For ...eks travel has been ...our up Water street, ... quite rough. During ...at the point where the ... removed, rain turned it ...the worst mud holes seen ...stertown for some years, ...el at this point to be han... ...nsiderably. So many cars ...n the bog that Roads En... ... stationed a big state ... point which pulled many ...rder roads. Realizing the gravity of the situation, Roads Engineer Shure put almost the full force of the state roads system under him into action on Wednesday evening, digging out the mud and putting a firmer bedding of sand and stone in its place. At the same time Officer Cooper had a force of men dumping shells on each side of Water street and laying the mains which had been damaged. The result has been most satisfactory. As we went to press, Engineer Shure had practically filled in the hole, had swung into action his big roller and would, it appeared to us, have the road in good shape in short order. With the hill almost eliminated, and Maple avenue now a hard road to Washington avenue, the improvement, generally speaking, is one of the biggest made since High street was transformed from one of the deepest bogs on the Peninsula to the finest ...eet of any town on the Shore.
