Ralph Bingham's lecture just a social friendly hour with refreshments, sent the people home happier better acquainted and with a larger onlook on their own work.

The Kent County Teacher's Association will be held in the new High School building next Friday, December 7 from 1:00 to 3:30 p. m. Each teacher, if she has not already done so, is asked to bring the names of her P. T. A., and also the dates they are to meet the remainder of the year.

Each teacher is asked to bring (not the names) but the number of children in each reading class as she has them combined. We hope every teacher is combining classes in reading so she can devote longer periods to each recitation. Please make combinations if you have not done so wherever possible.

Professor Thos. L. Gibson will be with us at the teachers' meeting next Friday. This will be a rare treat. Be here to hear the first song. Invite your friends.

He spoke of the great men of the world who have been well educated and the help they have been able to give to their country on account of their ability to attack great problems, because of their education. He made mention of some of our great men, Washington, Lincoln, Roosevelt, Wilson and Harding, as well as great men of other countries.

He made a special plea to the parents to educate their children in order to eradicate illiteracy, in our community, to better for them for earning a livelihood, and to create an air of culture and refinement in our community as well as to make them better citizens.
