IMPORTANT LEGISLATION

The present session of the Maryland Legislature promises to be an interesting, progressive and profitable one, as many important measures will come before it for approval or rejection. Among the important measures to be passed on is the conservation measure. This, we believe, is a question that should be given much thought, as it involves much of our food, fruit and shade tree life. The one-man-power suggestion is meeting with much opposition and is looked upon as a dangerous precedent for the state to set. The Merchants and Manufacturers Association of Baltimore are strongly opposing the one-man-power suggested by H. W. Vickers, the Conservation Commissioner, and are offering as a substitute a commission, consisting of fifteen members, one from each two counties of the state, three commissioners from Baltimore City and a paid adviser to the Commission. Mr. Wallace M. Quinn, of Crisfield, has a plan calling for a board of seven members and the elimination of the Commission from politics.

—A number of farmers and other citizens of Kent County attended the three-day meeting of the State-wide Farm Bureau Federation in Baltimore this week. The program consisted of speeches by prominent men and women in the agricultural world; organization of various branches; election of officers and a banquet. Governor Pinchot, of Pennsylvania, and Governor Ritchie, of Maryland, were scheduled to speak, but were unable to do so.

Coolidge On First Ballot

It is stated by the Associated Press that Administration leaders,after careful canvasses, figure that President Coolidge will be nominated on the first ballot in the Republican National Convention at Cleveland in June. They count on votes of 597 of the 1109 delegates, 555 needed for choice of the nominee. Cooldige would thus have forty-two votes to spare. Hiram Johnson is Coolidge's only open opponent.

MRS. FAUCETT REGAINS HEALTH, PRAISES NEW DOCTOR

Stating that she wanted all the world to know about her wonderful recovery, after struggling to fight the battle between life and death, with an illness diagnosed by local physicians and specialists as 'stomach ulcers,' Mrs. Oscar Faucett relates her experience in the thrilling episode in which she is the leading character.

Mrs. Faucett was born and raised at Rock Hall and is well known to most every one in Kent County. Prior to her sickness, Mrs. Faucett was a strong, stout and healthy woman.Several years ago she became ill with a stomach disorder, for which she was treated by local doctors without relief. The condition became worse and worse as months went by until she had to be taken to Baltimore, where she was under care of a prominent stomach specialist. After making tests and X-rays, the specialist diagnosed the trouble as stomach ulcers. She was put on a strict diet, which, Mrs. Faucett says, "almost starved me to death."

She continued to get worse and finally returned home, in the meantime losing between 30 and 40 pounds in weight. Mrs. Faucett's brother came to visit her from Philadelphia last summer, and knowing of the wonderful work of Chiropractic, he took her to Dr. Dill, the Chiropractor in Chestertown. After an examination Dr. Dill discovered that the trouble was due to a pressure upon the nerves that run between the stomach and the spine. This pressure was due to a slightly misplaced spinal vertebra or bone. After a series of adjustments Mrs. Faucett became entirely well. The stomach trouble is gone, she now eats most anything she wants and has gained over 25 pounds in weight. adv.-1t

ROSE BUD PRODUCTS

THE ACME OF HONEST QUALITY!

DAIRY FEEDS

For your Dairy cows we have FEED that is incomparable. Quantity milk production is the aim of the modern dairyman. And milk, like most every other generative product is easily susceptible to scientific nourishment. The man who doubts the wisdom of the use of feed, prepared by a formular of scientific exactness, is the same kind of a man that doubts if the Automobile has come to stay. QUIT GUESSWORK, drop around to Radcliff Mills and we will show you a feed that will materially pay divedends in a larger milk supply from your herd.

POULTRY FEED

For several years we have preached correct feed as the only way to a maximum egg supply. We have regular stock feed, and in addition do our own mixing by a formula prepared by the Maryland Agricultural College. Futher, the poultryman oftimes has a formula of his own. In these instances, we cheerfully mix the ingredients strictly in accordance with directions. If you are not using a feed for your chickens we would like to have you call, and we will point out the many undeniable advantages of starting such a practice.

ROSE BUD FLOUR

Consistantly we have talked to you of Rose Bud Flour. We have done this because we know that Rose Bud has a quality of which we cannot say to much—cannot praise too highly. For purity, whiteness, flakiness in crusts, featheriness in dough it stands paramountly ahead of the ordinary run of flour. The hundreds of constant users of Rose Bud are our best salesmen. It pleases a family! The good news is passed on to a neighbor. Presto! we have a new customer.
