Local Order Discusses The Holy Bible

The Holy Bible, conceded by nearly all mankind to be the greatest book of all the ages, containing as it does poetry as great as has ever come from the pen of a master, and logic as keen and as far-reaching as ever written by the most renowned philosophers of all time, was discussed at the weekly meeting of the Chestertown Patriotic Order ... of America at their meeting Tuesday evening at Fraternal Hall. The Book of Genesis, which reveals the handiwork of God in the creation of the world, and around which has clustered unrelentless criticism and unending debate, was the part of the Scriptures under discussion. This is an age of skepticism and the Bible, as well as everything else under the stars has not escaped the pointed shafts of the seeker for truth in all fields, and in order to get a better understanding of the Sacred Book, the Order decided to investigate it for themselves and take up some parts of it for discussion. After the chaplain had read the first half of the Book of Genesis, the members were called upon to give their opinions on the same. The result was most interesting and instructive. Next week the Patriotics will take up the second half of the Book of Genesis. Members are requested to be present.

IN MEMORIAM

In loving memory of our dear wife and mother, Mary A. Starr, who departed this life Jan. 9, 1923:

One year has passed
Our hearts still sore,
As t... goes on
We miss her more.
So sad and sudden
Was the call,
Her sudden death
Surprised us all.
Of grief and sorrow
We have had our share,
But the parting of mother
Was so hard to bear.

Sadly missed by husband, son and Grand-daughters.
