STORM ON WATER

RIVER AND BAY A MASS OF SEETHING SLUSH—ERICSSION LINER JAMED IN HER DOCK

During the storm of Tuesday and Wednesday, Chester River and Chesapeake Bay was a mass of seething, floating, wind-driven slush. No boats braved the storm for any purpose. Transportation along the River and in being.

The snow, ice and slush, played havoc with boat taffic Wednesday night. The Ericssion Line steamer locked into the lock at Delaware City Wednesday morning at 4 o'clock. It became jamed tight in the lock by the snow and ice and was not able to make its way out until after 7 o'clock and resume the trip to Baltimore. The slush jammed and packed tight between the sides of the boat and the lock wall, and it was ncessary for the local lock tenders to cut the mass of ice and snow out in order to extricate the boat.

IN MEMORY

In memory of our dear Father and Husband, John Ward, who died one year ago today Feb. 23, 1923.
When we gather in the old home,
It is sad and lonely there,
No kind father and husband to greet us
Nothing but his vacant chair.
By his loving wife and children.
Surrounded by frieds I am lonesome
Amidst pleasure I am blue,
With a smile on my face, my heart aches,
I'm always thinking of you.
By his loving wife Ella.

DIPTHERIA TESTS

This clinic is to be held under the auspices of the State Department of Health and the test will be given free of charge to all children whose parents desire it. It is especially desired that in addition to school children the children under school age be tested for they are more liable to contract diptheria.
