If Born in April the Diamond is Your Birthstone.

Diamonds always retain their value. Whenever you dislike the diamonds in the setting originally purchased you can have them made into something else. For instance, out of a diamond stud you can have a ring made. Or, the diamond can be set into the case of a watch. You can, in fact, have any diamond piece changed to meet the requirements of fashion.

We carry undoubtedly the largest assortment of diamonds in the city. We sell them at reasonable prices because we buy them right. We sell them for what they are and guarantee them.

We are particularly strong on diamond rings. If we do not seem to have just what you want we can easily make it. You can select the diamonds yourself, and you will also be handed the sketch of the article to be made, for your criticism and O. K. Then you will be assured that the article will be made just as YOU want it.

At present the diamond and platimum bar pin is very popular. See our selection.
