SWEPSON EARLE APPOINTED CONSERVATION COMMISSIONER

Gov. Ritchie, the first of this week, appointed Mr. Swepson Earle, Conservation Commission to succeed Harrison W. Vickers, Esq., whose term expires May 5. In an interview with Gov. Ritchie this week the Governor said his reason for appointing Mr. Earle to this position was "because he thought the State's greatest resources should have at its head someone practically and scientifically equipped for the position, and that Mr. Earle is recognized as an authority on Conservation throughout the country." The Governor further stated that "the removal of Mr. Vickers was not due to local opposition in Kent County.

When he told Mr. Vickers he would not reappoint him for above reason that Mr. Vickers replied: "'Well I am going back to Kent County and publish a statement that my removal was caused by the unfriendliness of the senator from that county and because I supported the purse net fishermen in that section." to which the Governor replied, "Mr. Vickers, I do not see how you can make such a statement because that is not the reason." Mr. Vickers' reply to the Governor was, "I am going to do it for local politics."

THE POLITICAL SITUATION in this county, as far as we are able to learn, is unchanged since our last issue. The question to be decided by the voters on May 5, is for the supremacy between Senator W. B. Copper and his forces and H. W. Vickers, Esq., and his followers. Senator Copper's record in the last session of the Maryland Senate is one he can justly be proud of. There were no heavy burdens placed on our citizens by the passage of useless laws. He stood with Governor Ritchie on every question in the Governors fight for a reduction in the State tax and his economy programme. In other words Senator Copper stood for the Governor's Economy plank in the Democratic Campaign platform. It was on those issues that he made his campaign last summer and won his nomination and election and it is on those same principals that he and his friends now take their stand. There was no getting together with Mr. Vickers and his friends on a 50-50 basis so the future of the supremacy of the Democratic destinies of this county, as between Senator Copper and his followers and Harrison W. Vickers, Esq., and his followers will be settled at the polls on Monday, May 5. Judging from the many recruits to the Senator's forces since the last primary it would seem there can be no doubt as to the result on May 5.

WAR ON CROW.

STATE GAME WARDEN SENDS OUT NOTICE TO KILL ALL POSSIBLE.

War on the crow as a destroyer of the eggs and young of game and useful birds, young rabbits, poultry and crops, will be carried on by the sportsmen and farmers of Kent county during this spring in an effort to save game and crops from the depredations. Local gunners who are familiar with the crow's habits state that he is the worst enemy that useful birds have and that he is responsible for more damage than any other bird in wild life. E. Lee Lecompte, State Game Warden of Maryland, states that the crow is very destructive to the eggs and young of game and insectivorous birds and has become a menace to the muskrat industry in this state. Though its wardens. Maryland advises the killing of the crow at all times and in any manner as they are classed among one of the most destructive species of birds.

The efforts of local sportsmen and farmers will be helped by the fact that a general movement against the crow is in force throughout the country. A canvas just completed by one of the largest states shows that crows pick out the eyes of young lambs and calves, besides doing other damage. At this time of the year the nesting season for birds begins and if they are to be protected from the crow's ravages and allowed to raise their young, quick action on the part of sportsmen and farmers is necessary. In many sections the depredations of crows have been so serious that farmers have had to go to the expense of replanting crops.
