KENT TREES DAMAGED

Many Kent fruit trees have been greatly damaged by what is known as tent caterpillars, especially apple trees.

These worms are about two inches in length and are of a brownish color with white dots. They build large coccoons around the trunks and limbs of the trees in which they lay the eggs from which it is said a destructive moth is hatched. The worms have made their appearance here all of a sudden being attacked with the result that thousands of dollars worth of fruit will be lost. Resort is being made to burning the cocoons, but millions of worms can be seen on one tree and the tasp of destruction will be very difficult.

Memorial Day Celebrated

Memorial Day was most appropriately observed yesterday, Friday, in Chestertown. The American Legion had charge of the celebration. Flags were displayed from many buildings, and the day being a holiday was generally observed. The day was an ideal one and crowds thronged the streets; the cemetery was a vast display of floral tributes to the dead; a parade was held at 10.30 in which The American Legion, Capt. Kibler's Scouts and Sheen's Cavelry participated; a ball game was held at the college in the afternoon as well as athletic events and a speech by Senator Roe, of Queen Anne's County.

BINDER TWINE

For 22 years this firm and its predecessors have offered to the farmers of this community the best of grade of Standard Twine that could be had. Always offering twine that would run full length, full number of feet to the pound, every ball sold was guaranteed, and if not good could be returned, and it has been supplied at the lowest possible price, QUALITY, LENGTH and STRENGTH considered. There was twine sold in this territory last year running as short as 437 feet to the pound and in some sections it ran as short as 401 feet to the pound.

Compare 437 feet with 500 feet and you lose the binding of 160 bundles of wheat on every 5 pound ball. When you buy your twine, buy length and even quality, good working twine. This year we again offer McCormick & Deering GENUINE standard twine. This is in 5 pound balls and also the large 8 pound balls. Two of these large balls go in the twine box at one time and they save time. Our stock of twine is limited and we will appreciate your placing your orders now for what twine you need. The twine is here on display, we will be glad to have you come in and examine it.
