BINDER TWINE

For 22 years this firm and its predecessors have offered to the farmers of this community the best of grade of Standard Twine that could be had. Always offering twine that would run full length, full number of feet to the pound, every ball sold was guaranteed, and if not good could be returned, and it has been supplied at the lowest possible price, QUALITY, LENGTH and STRENGTH considered. There was twine sold in this territory last year running as short as 437 feet to the pound and in some sections it ran as short as 401 feet to the pound.

Compare 437 feet with 500 feet and you lose the binding of 160 bundles of wheat on every 5 pound ball. When you buy your twine, buy length and even quality, good working twine. This year we again offer McCormick & Deering GENUINE standard twine. This is in 5 pound balls and also the large 8 pound balls. Two of these large balls go in the twine box at one time and they save time. Our stock of twine is limited and we will appreciate your placing your orders now for what twine you need. The twine is here on display, we will be glad to have you come in and examine it.

NEW PROFESSOR AT WASHINGTON COLLEGE

Washington College is indeed fortunate in securing as Professor of Commerce to succeed Prof. George R. Harrington the service of Prof. Virgil I. Pinkstaff, of St. Louis, Mo.

Prof. Pinkstaff was graduated from Washington University at St. Louis with the degree of Bachelor of Science and Commerce. This coming June he will secure his M. A. from the same institution. In addition to work done in St. Louis, he has to his credit one year of graduate work at Harvard University.

With his admirable college and university preparation and from the strong testimonals in his behalf which they have received, the college authorities confidentally expect that Prof. Pinkstaff will continue and increase the prestige which the department of commerce enjoyed under Prof. Harrington.

Public Health Meeting

Kent County Public Health Meeting will be held June 11th at 2 p. m. in the Armory, Chestertown, over Gill Bros. Ice Cream Factory.

All should hear the special speakers for the occassion and especially Mr. Edward B. Passano, president of Baltimore County Public Health Association. Mr. Passano is one of the busiest men in Baltimore County outside of the public health work.

Kent County in organizing the public health work may desire to follow closely in the footsteps of Baltimore as it is conceded to have done the best public health work in the State and is pointed to with pride all over the United States.

Kent County has a large death rate and public health work will reduce this uncorable record of these preventable diseases.

Some of the slogans of public health work are: "Keep well rather than to get sick to be made well".

"It is cheaper for you and for your state and county."

What is The World Coming To?

Heard at a meeting of the Post Office "This is a fact" lodge. One member complained that bull frogs are destroying his flock of ducks by pulling them under the water and drowning them. Some bull-frog. Another member complains that turtles are not only killing his geese while in the pond but are following them up to the house with muderous intent.

All are complaining that gun shells are being made today without any shot in them. They can prove this by their days' bag.

Crows are flying off with the wild ducks after they kill them.

We are prepared to hear complaints of mice killing their cats or chickens destroying the foxes in the county.

MEDICAL SCHOLARSHIPS.

Five scholarships will be awarded for the medical School, of the University of Maryland this summer as provided for in the will of the late Dr. Clarence Warfield.

These scholarships are open to students of this state of good moral character and who have the educational requirements to entter the University. Preference will be shown students from the rural districts and the scholarships require that students after graduation from the University and with the necessary Hospital training shall practice for two years in the section of the state from where they come. The scholarships cover the full amount of fees charged for tuition in the medical course.
