EVERYTHING NEEEED FOR BUILDING

CURTIS WOODWORK

Are you sure your plans will produce the house you'll be satisfied with?

Developments in home building have come swiftly during the last few years. Perhaps some of them are ideas that you'll want in your new home. After the home is built it will be too late.

The Curtis line of Woodwork comprises the latest refinements in home building and will cost no more, when completely installed in your home, than ordinary woodwork. We handle Curtis Woodwork, together with practically everything else you'll need in building material.

We'll be glad to assist you in planning your new or remodeled home and will procure free for you a $1 Curtis plan book if you are interested. We can furnish plans for the home pictured here, and for 300 other Curtis homes.

Barclay Cooling Station Closed

With farmers of the Barclay neighborhood as their creditors to the extent of about $4,000, the Quaker City Dairy Company has closed its cooling station, and dairymen of the community are now being compelled to haul their milk to the condensing plant at Greensboro, Later, it is stated, arrangements may be made for handling the product at the plant of Harbison Brothers, Sudlersville. Two months ago the Quaker City Company failed to mail the regular milk checks and since that time the 52 patrons of the cooling station have received nothing for the milk delivered. A meeting of creditors was held at Barclay last Tuesday night, which was attended by C. E. Allebach, of the Inter-State Dairy Council.

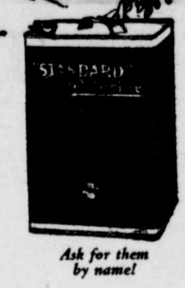

ROAD OPENED

The Quaker Neck road is now open to the public. This is a fine piece of work and will be a great benefit to the public. The road is two miles in length, about a mile of which is in sight of the river. This new road will be quite popular as a drivway in the future for our deople. The road to Pomona will commence from the Pomona end and will be started shortly. The Old Line Construction Co. has the contract.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not ordered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
