BINDER TWINE

For 22 years this firm and its predecessors have offered to the farmers of this community the best of grade of Standard Twine that could be had. Always offering twine that would run full length, full number of feet to the pound, every ball sold was guaranteed, and if not good could be returned, and it has been supplied at the lowest possible price, QUALITY, LENGTH and STRENGTH considered. There was twine sold in this territory last year running as short as 437 feet to the pound and in some sections it ran as short as 401 feet to the pound.

Compare 437 feet with 500 feet and you lose the binding of 160 bundles of wheat on every 5 pound ball. When you buy your twine, buy length and even quality, good working twine. This year we again offer McCormick & Deering GENUINE standard twine. This is in 5 pound balls and also the large 8 pound balls. Two of these large balls go in the twine box at one time and they save time. Our stock of twine is limited and we will appreciate your placing your orders now for what twine you need. The twine is here on display, we will be glad to have you come in and examine it.
