

QUESTION

What to feed young turkeys. Our feed has been used for years with wonderful results.

Why Experiment?

They will live better and grow faster on

BROOKS' TURKEY FEED

Brooks' Mill

CHESTERTOWN, MD

MOTHER knows what her family likes. Corkhill Ham has a perfectly delicious flavor because the Corkhill method of curing is far and away better than the ordinary cure.

Buy a *whole* Corkhill Ham for economy's sake. Ask your dealer to cut two or three slices from the center. Serve the slices broiled; bake one large portion; boil the other one.

Be sure, too, that you get Corkhill Ham. Its flavor is delicate and mild. It needs no parboiling. It is government inspected. Your dealer has it—or can get it very quickly.

Say Corkhill

All Corkhill Products are Government Inspected.

DOES IT PAY?

GEORGE W. MOORE, of Betterton, took out a policy for $225 in 1907 in the

Mutual Fire Insurance Co.

of Kent County, Md.

In March, 1924, he canceled this policy and was paid **$24.08.**

He paid in premiums during the 17 years, **$34.00** Thus he got insurance for 17 years for only **$10.**

MARYLAND STATE ROADS

MANY MILES COMPLETED—MORE TO BE BUILT

Two hundred and forty-two miles of roads on Maryland have been completed 52 miles now are under construction and six miles have been approved for construction under the Federal Highway act 1921, it was announced recently by the Bureau of Public Roads United States Department of Agriculture. A total of $131,427 now remains to be expended in Maryland under the act. Roads to be built and paid for out of this fund have not all been selected as yet.

The Federal highway system in Delaware. Maryland, Virginia and West Virginia includes 6,512 miles. This milage by States is: Delaware, 301 Maryland, 1,294; Virginia, 3,016, and West Virginia, 1,901 miles. This system of highways has been designated by the States and approved by the Secretary of Agriculture as provided by the Federal Highway act. According to this act, the State highway department were to designate a system of roads not exceeding 7 per cent. of the total rural milage for improvements with Federal aid up to 50 per cent of the cost.

Appropriations for Federal aid totaling $540,000,000 have been made since 1916 and considerable progress already has been made on the system.The total apportionment during this period was: Maryland, $4,013,004; Delaware, $1,373-904; Virginia, $9,144,390, and West Virginia, $4,955,856. Although two of the appropriations were made before the Federal Highway act restricted the expenditures to roads of the Federal aid system, the greater part of the expenditure has been on the designated system.

THE TOMATO OUTLOOK

CROP IN KENT GIVES PROMISE OF FAIR RESULTS

With the warehouse empty, the markets bare of tomatoes and with but 60 per cent. of the normal acreage of tomato plants in the ground and an estimate of only a 75 per cent. yield from this decreased acreage, the out look this summer for tomatoes only fair in Kent County.

Owing to the incessant rain and the destruction of young plants by rain and wind, the tomato-growing situation today is just where it ought to have been just 30 days ago and the prospects are that even with good weather the setting out of seed plants which should have been completed on May 10 was not finished before June 20th.

By then it is hoped by the grower that 5,000 acres will have been planted. The program outlined in the spring by the growers and packers called for 8,000 acres, with an estimate of five tons an acre.

Many locally produced seed plants have been destroyed as fast as they have been transplanted.

Early in the spring many seed plants were grown in South Carolina, under the supervision of the county agent These are practically the only plants that have stood up under the ravages of the weather, and it is upon them the packers must depend.

The same growing conditions are true of vegetables. In some places corn has been washed out of the ground four or five times, and farmers are now beginning to plant corn that will ripen in 90 days to replace that of the 120-day variety. It is said that the corn planting has not been so late in 40 years.

THE CENTURY THEATRE

"Tiger Love," the film adaptation of "The Wildcat," by Manuel Penella, is the Paramount production which will be shown at the Century Theatre during the week beginning, Monday, June 30.

"Tiger Love" is a story rich in the romance and fire of old Spain, a story of a famous bandit and the daughter of an aristocrat. Antonio Moreno, himself a Spaniard and very strong with the fans now on account of "The Spanish Dancer" and other good performances, and Estelle Taylor, luscious black-eyed beauty of "The Ten Commandments," have the leading roles. The rest of the cast is of equally high merit.

New York hailed "The Wildcat," the successful Spanish Opera from which the picture was adapted, as something brilliantly new when it ran at the Cort Theatre, on Broadway, during 1921-22 and moving picture fans will find it the finest adventure romance in months.

"Tiger Love" has romance for the flapper, for the youth excitement, a delightful love story to bring back memories for the old folk—and grade A-1 entetrtainment for all.

Augusta Cooper, coloratura soprano and Anthony Guarino, tenor formerly with the Boston Opera Company have been retained for that same week by popular demand and will render an entirely new program of selections in a special musical act.

ECONOMY vs. RISING COSTS

THE great problem of the telephone business in the past few years has been to meet the increased costs of the things involved in furnishing telephone service without a corresponding increase in our charges for service. The increase in the cost of most of these things varies from 75 to 100 per cent.

¶ A notable instance is the Company's taxes, which have advanced from $386,000 in 1919 to about $1,000,000 at the present time. Based on the tax per telephone this means an increase of over 85 per cent.

¶ In order to meet these increased costs new methods have been adopted, labor saving devices introduced, waste eliminated, closer supervision and more effective training have been inaugurated and individual efficiency has been stimulated.

¶ As a result of these accomplishments, we have now a more permanent force working more efficiently than ever before. As an example, in 1919 we had one employee for every 40 telephones; now we have one employee for every 45 telephones. While there has been a 36 per cent increase in the number of telephones, the number of employees has increased only 20 per cent.

¶ Although the cost of the things that go into giving telephone service is more than 75 per cent higher than formerly, the improvements and economies we have effected have made it possible for us thus far to furnish service at approximately 25 per cent above our pre-war charges.

¶ And with the moderate increases now under consideration, the increase in the cost of telephone service to the users will still be far below the general advance in living costs.

INNOVATION

Realizing that a CHARGE ACCOUNT at this time will be a great convenience to the many customers of this store, Mr. Sachs has arranged with a Baltimore Credit-to-all Store to open a store in Chestertown, with Headquarters at SACHS SHOE STORE, where you may make your selection of Ladies, Misses, Children's and Men's Ready-to-Wear; Household Furnishings, Jewelry and in fact any thing that you may need and pay a LITTLE DOWN on a BIG BILL and enjoy it while paying for it.

Come in and let us explain the plan.

NOTICE

The above does not affect the policy of SACHS SHOE STORE. We will continue to SELL SHOES on the same basis as before—GOOD SHOES AT A SMALL PRICE and SMALL PROFIT.

All shoes will be sold for CASH Only.
