OLDSMOBILE SIX

PRODUCT OF GENERAL MOTORS

Stamina—

in the driving mechanism

Like the sinewy muscles of an athlete, every part of the Oldsmobile Six driving mechanism is built for *Stamina!*

From engine to rear wheels

Oldsmobile's smooth engine develops over 40 H.P.—power directed to the road through the finest clutch built—sturdy, flexible, universal joints—tough nickel-steel gears—and the most accessible axle ever developed.

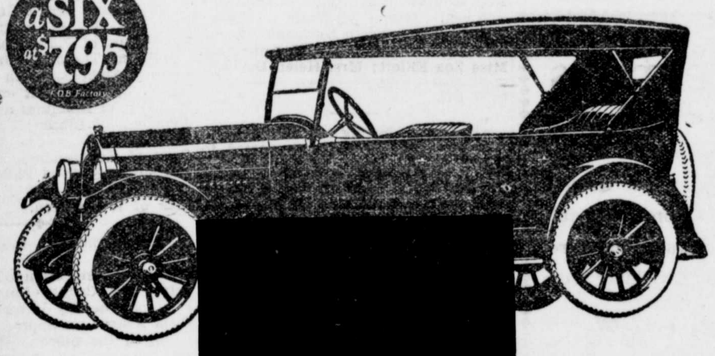

Long life guaranteed

Years of service are guaranteed by pressure-feed lubrication—by main bearings almost as large as the cylinders—by cooling spaces all the way around all the six cylinders, valve seats and spark plug openings—by a frame re-inforced with four big cross members.

Your next car

Seriously consider the things that contribute to length of life, economy and driving satisfaction, and you will choose—the Oldsmobile Six!

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
