QUICK WORK BY MR. SEWELL

Quick work by Mr. Phillip Sewell, in going to the aid of Miss Rebecca Moffett, while swimming at Rolphs Wharf recently, probably saved her life. Rolphs Wharf has become the scene of considerable bathing during the past few years, and many go there after supper each day and enjoy the fresh clean water of the Chester and the fine sandy beach. On the occasion mentioned above Mr. Sewell, expert Ford mechanic and foreman at the Eliason Motors Co., noticed Miss Moffett, one of Kent's efficient school teachers, floundering about in the water, finally going under; she arose to the surface and went under once more. Mr. Sewell is an expert swimmer and seeing Miss Moffett's dilemna, sprang to her assistance and pulled her to more shallow water. While Miss Moffett was not greatly inconvenienced bf her narrow escape, yet she had a narrow escape. It takes but a few minutes loss of self-control in the water to prove fatal. and Mr. Sewell deserves hearty commendation fo rhis promvtness in going to her assistance.

—The early training of the Johns Hopkins foot ball squad will be done on Kent county soil. The athletic authorities of the Baltimore University have made arrangements with Mr. Walter U. Lusby, and they will occupy four o fhis bungalows at Tolchester soon after September.

LAMPS NOW 37 PER CENT. BELOW PRE-WAR PRICES

On July 1st, according to an annouecment made by the General Electric Company, it will reduce the prices of its incandescent lamps approximately 10 per cent throughout the United States.

This latest reduction is the fifth reduction in twenty seven months, and the second since February of this year. It brings lamp prices thirty seven per cent below 1914 figures, and this reduction alone means a saving to the public of over $7,000,000 annually.

Improvements in methods and in machinery for making lamps which have increased the output per operator and multiplied the capacity of the factories, have been principally responsible, the company states, for these reductions in prices.
