HEALTH MOBILE

As the Health Mobile looks when it is opened out Ready for a Health Conference to show Mothers how to Keep their Babies Well, Bureau of Child Hygiene, State Department of Health.

The Bureau of Child Hygiene of the State Department of Health, with the cooperation of Dr. J. P. Franklin, Deputy State Health Officer, and the physicians of Kent County, is planning to send its Mobile Clinic to several towns in the county.

The purpose is to offer to parents a free examination of the infants and young children. There are hundreds of babies in Maryland who die because they are not taken regularly to their doctors and many older children are handicapped when they enter school on account of disease or physical defects, which could be remedied if detected in time. It is particularly desired to examine those children who are not under the regular care of doctors.

The object of the conference is not to treat, but to examine children and advise their parents. A child specialist and a nurse will be in attendance. The service is provided by the State Department of Health, and is all free.

Separate hours will be arranged for town cinemas will be shown depicting town cinemas wil lbe shown depicting some phase of child health work, and talks will be given to the mothers.

It is particularly desired that the local physicians be present and help with the examinations.
