A&P

Where Do You Buy Your Groceries?

More people patronize the A&P Stores every day than any other stores in America.

The reason is simple, at any A&P Store you get quality goods at economy prices.

NOTICE TO DOG OWNERS.

As there are quite a number of persons who have not procured Licences for their dogs, which Licences were due July first, and as the dog constables have the enrollment of owners or keepers and the numebr of dogs they keep who have not procured these licenses we take this means to warn such persons that unless they procure licenses for their dogs before the fifteenth day of September nevt, their cases will be put in the hands of the Sheriff for the enforcement of the law.

Poultry and sheep are being killed and the owners are expecting pay for what is killed, and this is the only means we have of getting the money to pay them.

By Order of the County Commissioners
John Medders, Clerk.

THE CROP OUTLOOK

Resume Of The Growing Crops In This Section

This week was marked by a continuation o fcool weather, with much cloudiness, a deficrency in warm sunshine, and moderate rains.

It was unfavorable for the maturing of late corn, tomatoes, sweet potatoes, tree fruit, etc., and for the growth of late potatoes and late truck crops. The rains interfered with outdoor operations.

Cutting of early corn is becoming more general. Late corn is maturing very slowly and a large part of it is still green. Harvesting of sugar corn is coming to a close.

Late apples and late pears are being picked. Harvesting of peaches has ended, except late varieties in western Maryland.

In the Allegheny Mountain region thrashing of oats, harvesting of buckwheat, and digging of early potatoes continue; sowing of wheat has begun.

Pastures and grasses are fair generally, except still poor between the Allegheny and Blue Mountains.

Late potatoes are good generally, but growing slowly; they are still in bloom in southern Maryland and on the Eastern Shore. Sweet potatoes are maturing, and digging has begun over the southern half of the section.

Tomatoes continue to ripen slowly. The peak of the tomato season has passed in some districts and is at its height in other districts. Early tobacco is being cut.

The growing season is about two to three weeks behind the normal; hence the maturing of all crops is very late.

Rains of the second half of the week would benefit late potatoes, late truck crops, and pastures.

SPORTS

Other Sports on page 2.

Bill Johnson of Galena, was selected as utility man on an all-star team picked from the Eastern Shore League. Johnson played the outfield for Cambridge the past season but is also a finished infielder. Fox, of Sudlersville, who played for Easton was selected as catcher on this all star team.

The selection of Walter Johnson as the most valuable man to his team in the American League is an honor not only well placed, but more than deserved. Johnson is a ball player who has never figured in any publicity except that of the diamond. He more than anyone else is responsible for Washington's showing. He has never played in a world's series. It looks like we will have a chance to see the great art twirler of all time in action in a world series.

Following is the Washington College football schedule for this season:
Sept. 27—U. of Md., at College Park.
Oct. 4—P. M. C., at Chester, Pa.,
Oct. 11—Catholic U., at Washington
Oct. 18—U. S. N. A. Plebes, at Annapolis.
Oct. 25—Haverford, at Haverford, Pa
Nov. 1—Albright, at Myerstown, Pa.
Nov. 8—Mt. St. Mary's at Emmitsburg.
Nov. 15—Western Md., at Chestertown.
Nov. 22—Schuylkill, at Chestertown.

Coach Kibler of the Washington College football squad, is whipping his regular team into shape preparatory to the first game of the season on Saturday against the strong Maryland University team under the direction of Curly Byrd. There has always been a keen friendly rivalry between these two teams and when they meet on College Park gridiron on Saturday there will be a battle royal. The final selection of the regular team will not be made until just before the start for College Park on Friday, but the weak members on the team will be filled by a selection from a wealth of strong material among the substitutes. Coach Kibler is placing great confidence in his old line men, Cavanaugh, Carroll, Keenan, Dumschott, McGran, Kelly, Adkins and Reiger to make a strong aggregation, and there is no doubt that the team Miss Cinthia Clendaniel will open her prove a formidable foe fo rthe State team.

Big Event Across Bay.

Bay Shore Park across the bay from Kent, will be the scene of the annual contest for the world's premier International Seaplane Trophy, the Jacques Schneider Maritime Cup, on October 24 and 25. The United States Navy, whose team won the Trophy in 1923 from British and French entries at Cowes, England, will defend the Cup at Bay Shore in what promises to be the greatest international aviation contest of the past decade. The fastest seaplanes of the world, flying as entries from the U. S. Navy, Great Britain and Italy will compete over a triangular course which runs over the waters of upper Chesapeake Bay from Bay Shore to Mountain Point, at the mouth of the Magothy River, to Huntingfield Point, near Rock Hall and back to Bay Shore.

—Maryland total tobacco crop this year will amount approximately to 16,-100,000 pounds, according to the September estimate made public today by the Department of Agriculture. The condition of the Maryland crop is 70 per cent., according to the Government or about the same percentage of condition as reported for the country as a whole.

CHIROPRACTIC IS NOT NEW

The Chinese Practiced Special Therapy Over 4000 Years Ago.

Many people have the idea that Chiropractic is something new. A new fad or fan-dangled method. Such is not the case.

The heathen Chinese were the first to discover that the spine was the main shaft of man, and the origin of 95% of all disease. The Chiropractic of the ancient age was a crude method by which the High Chinese Priest walked up and down the spine to relieve aches and pains and even FEVERS. Today we have Chiropractic in a Scientific form.

History also states that Chiropractic in a crude form was practised in Bohemia a number of years ago. The Chinese and Bohemians however seemed to have lost the art, as the art of tempering copper was also lost by the Egyptians over 2000 years ago.

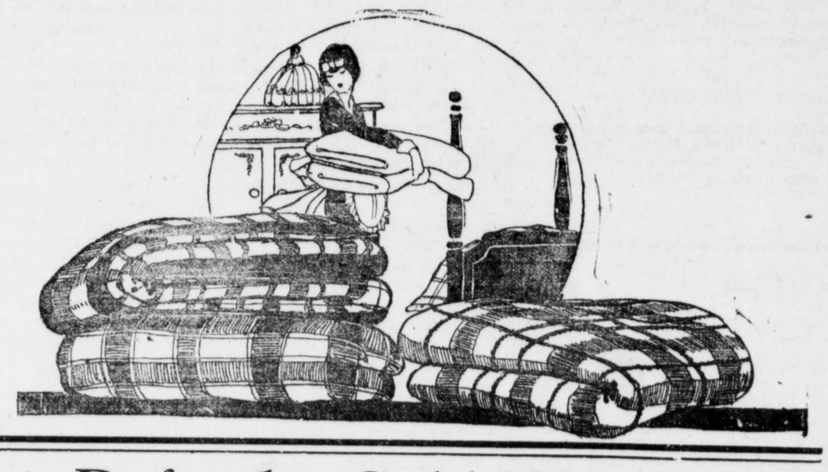

The twentieth Century surely must be the age of wonders, because with other wonderful inventions including Radio Telephony,the Airplane, etc., the lost art of Chiropractic and that of tempering copper has been found.

Today, the Health Science of Chiropractic is solving some of the great mysteries concerning Health. Perhaps it can solve your Health Problem. Your Chiropractor is always ready and willing to offer an explanation of his method. Call on him now.
