RESOLUTIONS OF RESPECT

WHEREAS it has pleased an Allwise Providence to remove from our midst the soul of our deceased friend and counselor, Sidney P. Townshend, an adviser in whose integrity and sound business judgement this Board had the most implicit confidence, and

WHEREAS, we feel that this Bank has lost the services of a counselor ever mindful of the best interests of the Institution, and the Community a man whose daily intercourse with his fellowmen in business, in professional life, and in every walk that pertained to the moral and social uplift of this Community was always an influence for good, and whose contact with men in trouble as well as in prosperity gave evidence of the deepest concern for their welfare, Therefore

BE IT RESOLVED, that the Directors of this Bank, many of whom came in daily contact with the deceased and learned to admire his broadmindedness and his consideration for the interest of his fellowmen, feel that the Community has lost a man whose good deeds, kindly disposition and lovable manner were like a benediction, and his passing has left an influence for good in the Community in which he enjoyed the highest regard and the most generous affection of every one. And be it further

RESOLVED, that these resolutions be made a part of the minutes of this Board, and that they be published in the County Press and a copy sent to the family of the deceased to whom we desire to express our deepest sympathy in their sore bereavement.

below 1913 level

If you need an engine, if you can use more power, read this message.

The Fairbanks-Morse "Z" Engine, famous for its dependability and economy of operation, is now priced 19 per cent below the 1913 Fairbanks-Morse advertised engine price.

This is the genuine "Z" engine. More than 1,250,000 horsepower in use today prove it the best for farm use.

Quantity production, engineering genius, and care in manufacture have made this price reduction possible. The tremendous saving is passed on to you.

Come in and see this engine. It is the cheapest "hired help" you can buy. Let us prove it!

Fire Near Galena

The large barn on the farm, near Galena, owned by Capt. J. E. Woodall and tenanted by Mr. J. H. Davis, together with a quantity of hay and a valuable milch cow, was consumed by fire early last Sunday morning. Upon going to the house after finishing milking, a cracking sound was heard. Mr. Davis and hands rushed out to find the left of the barn a mass of flames, they immediately proceeded to get the stock of horses and cattle to a place of safety, and efforts to save anything else proving futile. Origin of the fire is unknown. The fire companies from Millington, Middletown and a crew of men from the Chestertown Fire Co., responded to calls. The property was partly covered by policy in the Kent Mutual.

TO IMPROVE KENT JAIL

At the recent session of the Circuit Court for Kent County, the Grand Jury reported somewhat unfavorably regarding the general construction of the Kent County Jail as well as the sewerage arrangements. Consequently, the matter was brought before the Kent County Commissioners on Tuesday. who have taken steps to make the needed improvments that will make the jail not only a better place for the sheriff and his family but also a better and safer place for prisoners.

According to plans now being determined upon. the fence on Cross St., will be removed. as well as the outbuildings adjoining. The jail will then be extended in this direction, which will be made into quarters for the sheriff and his family.

The present family quarters of the sheriff will be made into a place of detention for women who are incarcerated.

The cells and other rooms will be made somewhat smaller and stronger. so that each prisoner can be given separate quarters.

The sewerage arrangements at the jail have always ben poor. which has entailed great care and inconvenience upon the sheriff and a condition of affairs beyond the imagination of the ordinary citizen. This condition will be done away with, and the county jail placed on a basis that will be commensurate with the other public affairs of the community.

When completed. the front of the County Jail will be on Cross street, and Sheriff Goodman and family, and his successors in office, will then be allowed the privileges of home life when they are attending to their somewhat arduous duties as preservers of the peace and safety of the county.

PEOPLE'S COLUMN

Thank you, Mr. Ediitors, for publishing fourteen specific directions, how to break up a church. They are so good, that like Martin Luther with his noted thesese I have tacked them on the front door of my church and requested all who enter to read, mark, learn and inwardly digest.

They are being effectively put into practice in Kent, as well as elsewhere

Last Sunday, as I came out of my church, where I had preached, (on a beautiful day and splendid roads,) to nineteen people, I was no little depressed, a young mother came up to me and said, "Doctor come out here, I want to show you something," She took me out to a new closed in Ford car, and said, "this was given to me by my husband after the birth of baby," She opened the rear door and out bolted three splendid boys ranging from two to six years of age and full of animal vigor. She then opened the front door and there on the front seat, lay, as "snug as a bug in a rug," an eight weeks old baby girl, tugging at a bottle and as happy as babies only can be, she said, "I had to prepare breakfast this morning, help my husband do his milking, and get these children ready, but I was determined to come to Church," I put my hand on her shoulder and said "Woman, you have done me good from the ground up, God bless you," I was no longer desponding, for five years, that woman has been bringing her children to chruch, I often look up while a psalm is being read or a hymn being sung and there she is, standing behind her baby, seated on the back of the pew in front of her. Such women and such goers as that build up a church.

TRY TWO BAGS OF
Larro The Ready Ration for Dairy Cows

Every dairyman in this county should investigate Larro. We want you to see how it will either increase your milk yield or else produce the same milk with fewer cows, less and less work.

It keeps cows in "tip top" condition. Ends off-feed conditions. Does all this because its famous blend of selected ingredients is succulent, palatable, easily digested and highly nourishing. Contains no filler nor off-grade ingredients. Your neighbors know these things are true. If Larro fails to produce more milk—the 2-bag trial costs you nothing. Why take chances with uncertain home mixtures? Why waste time? We invite you to try Larro at once.
