

Victrola—Waiting Here to Play for You

WHATEVER its model, finish or price, so long as it is a Victrola you can rest assured of its intrinsic value, a built-in merit and quality resulting from a quarter century devoted to the talking machine art. And behind a musical instrument of such obvious superiority goes our service, double assurance of satisfaction.

SHOP EARLY

One of the important features in the Shop Early, Mail Early campaign, which is being put on throughout the country by the Post Office Department, is the proper addressing and securely wrapping of Christmas packages. When you wrap your Christmas packages, wrap them securely, put your address in the upper left corner, so, if by any chance it should go astray, it can be returned to you and not sent to the dead letter office. The good folks in our community last year helped to bring joy and happiness to hundreds of thousands of postmen and clerks. Let's do our shopping and mailing arly again this year, so that we may again enable the postmen and post-office clerks to eat their Christmas dinners with their families and at the same time assure ourselves of having our Christmas presents delivered to our friends in order that they may be opened on Christmas morning.
