—With the Christmas season near at hand, the householder and store keeper are beginning to think of decorations for the holiday. It is, of course, the easiest thing in the world to go out and collect greens. In doing so do people realize that they are going into some one's woods or fields and helping themselves to something that does not belong to them? The owner of the property may want to keep the trees or shrubs for the beauty they afford, or he may wish to use them himself. At any rate they are property and have a real value.
