BRICE'S MILL

JOSEPH BRICE, Proprietor.

Bake things he likes with FLAVO FLOUR. It's healthful and tissue building. There is more nutrition and a sweeter taste in FLAVO FLOUR. It is made with a new process by the most modern mill in the world. Nature's food values and the delicious flavor of the wheat are not milled out as they are by other methods. FLAVO FLOUR is milled at home from home wheat. It is good. Buy it and patronize Home Industry.

TOTAL ECLIPSE JAN. 24

Most Unusual Phenomena Will Occur When Shadow of Moon Obscures Orb of Day.

Scientists believe they have gathered from experience a good idea of some of the unusual thing that will take place in connection with the total eclipse of the sun January 24.

Prof. George H. Peters, of the Naval Observatory, who has been on intimate terms with Old Sol for 28 years, related recently some of the developments that may be looked for in the shadow path,' with favorable weather, on the morning of the eclipse.

These include a fall of a few degree in temperature. Animals are likely to become perplexed and birds go to roost. Looking toward the west, just before the eclipse becomes total, one may observe the shadow of the moon coming toward the observer as if a thunderstorm were imminent.

The sun has just passed its minimum periods of spots, and will probably have some spots in January at eclipse time, causing some disturbance of the corona which can only be seen during total solar eclipse. The sun is 400 times farther away from the earth than is the moon.

The ideal spot to observe the eclipse would be far out in the North Atlantic Ocean, for the central line, passing over Montauk Point, N. Y., traverses the sea for the rest of its length, until north of the British Isles, the total eclipse becomes visible at sunset.

At sunrise, just east of Red Lake Minn., the eclipse will be total. In the eastern section of the United States the eclipse will be visible early in the forenoon, and in the Far West not at all, for it will still be dark there. Over the North Atlantic Ocean it will be noon and afternoon at eclipse time. The best position for observations in the United States will be along the line from Buffalo to Montauk Point.

MULES FOD SALE.

Having bought gasoline tractors we have no further use for SIX MULES which we will sell at a bargain price. These mules have been worked for the past four years on the county roads, are excellent workers and are in good condition. They may be seen at our Worton stables. For price and terms apply to
