Resolutions Of Respect

Resolutions of the Ladies' Aid Society of Locust Grove M. E. Church, on the death of Mrs. Wm. H. Kelly:

"Whereas, God in His all wise providence has called from our fellowship and to her Heavenly home, Mrs. Wm. H. Kelley, a faithful and devoted officer of this Society, since its organization; therefore, be it Resolved, that we hereby record our high appreciation of the faithful service and Godly lite of our departed sister. Her loyal and thoughtful services and her saintly character will linger in the memory of all who knew her; Be it also resolved, That we extend our sympathy to the aged husband, children and relatives of sister Kelley in their bereavement and pray that the God of all grace may comfort and enable them with us to say,"Thy Will Be Done;"Be it further resolved, That a copy of these resolutions be forwarded to the husband of Sister Kelley and that they be recorded in the minutes of our Society, also a copy be sent to the Chestertown Transcript and Kent News.

MRS. EDGAR S. DAVIS.

Made Unique Trade

We are regaled by the news that a woman in Missouri has swapped her husband off for a mule. She also threw in a second-hand fliver, a 50 pound sack of flour and a grindstone.

It is conceded that the woman who got the mule made a good trade, while the one who got the husband, the fliver, the flour and the grindstone was an easy mark.

Good mules are said to be getting scarcer and scarcer out in that country but husbands are as plentiful as ever and can be picked up any where.

WORTON ITEMS

Mrs. Georgia Butler, of Greensboro, Md. has been visiting her daughter, Mrs. G. E. Nicols.

Miss I. C. Cooper is quite sick at the home of her neice, Mrs. S. J. Lee.

GOOD WORK IN KENT

State Board Of Health Has Increased The General Health Of The Community

The State Board of Health is doing good work in Kent. Few people, especially in the rural sections of the State, know anything about the activities of the State Board of Health in safeguarding health. There was a time when most people in rural Maryland looked upon the State Board of Health more as an ornamental than useful adjunct of the State Government. But now they see how much it is ding for the general health of the community.

Much of the credit for this great progress in the treatment of communicable diseases is traceable to the organization of County Health Associations, through the agencies sent out by the State Board of Health in the person of the deputy State health officers and county nurses. These officers have crystallized the sentiment in the counties into a systematic working force, which, through the efforts of the monthly clinics and childwelfare conferences, have done a splendid work in restoring health and pointing those in advanced stages of disease into those channels through which they may find relief either in State sanatoriums or in private treatment by family phsicians, which most frequently lead to recovery.

Such is the work that is being done by the Kent County Health Association, organized last year by Deputy Health Officer Joseph Franklin, who is serving Cecil, Kent and Queen Anne's, over which he has jurisdiction through the medium of the monthly conducted by the State Board of Health, incooperation with local physicians.

Statistics furnished by Dr. Joseph P. Franklin, Deputy State Health Officer for Kent county, show that he first tuberculosis clinic was held in Chestertown in January, 1924, under the direction of Dr. Nicholas, of the Department of Hygiene, and since then 11 such clinics were held. One hundred and four complete examinations were made among the white and colored, the bulk of the patients being white.

Thirty-four new cases of tuberculosis were discovered, 30 of which were among the colored. These examinations were made absolutely without charge to the patient, and as a result the patient was referred to his family physician for treatment and in this manner the State officials and the local physicians worked in cooperation in detecting the dread disease and in prescribing remedies.

No one can estimate the value of these clinics against the progress of a disease which in three years took a toll of human life 67 persons, while 82 active cases are now on record in the State Department of Health from Kent county, 27 of which were detected as a result of the clinics.

The tubercular patients came from 23 different localities in the county, and 14 doctors cooperated in the clinics. The Kent County Health Center was established on June 9 last year, when Dr. Nicholas held the first clinic. The center has been mainly the meeting place for the mothers and children of the county who come for examination and instruction.

These child welfare conferences have been conducted by Drs. Nicholas, Wells and Manning, of the State Department, in cooperation with Dr. Franklin and Miss Lockwood, the county health nurse, who is rendering most valuable assistance in the homes in first aid, and in directing the treatment of various dieases. During these conferences 288 children, white and colored, have been examined, and wherever disease is found to exist a method of treatment is given the mothers, 21 of whom were instructed in the conferences during the year.

OLDEST ALUMNI KILLED

James E. Ellegood Killed On Sunday At Delmar

Mr. James E. Ellegood, lawyer, former president of Maryland State Bar Association, member of Board of Vistor and Governors of Washington College, and oldest graduate of that institution, was killed instantly, and his daughter, Mrs. Henry B. Freeney, was injured perhaps fatally, when a train smashed their automobile Sunday at Delmar.

James Ellegood Freeney, fifteen, grandson of the aged lawyer and son of the injured woman, escaped injury by leaping from the front seat of the car as the crash came.

Despite his age, Mr. Ellegood invarably drove his own car and was at the wheel at the time of the accident. A string of box cars on a siding prevented a view of the track until the danger was upon him, according to observers.

Mrs. Freeney was widowed two weeks ago. Her husband was a member of the law firm of Ellegood, Freeney & Wailes, of which Mr. Ellegood was the active head.

Mr. Ellegood celebrated his eighty-fourth birthday anniversary last New Year's Day. He was born in Wicomico county and was a graduate of Washington College. In 1870 he was admitted to the Wicomico county bar and practiced law in Salisbury for a few years, then moving to Cumberland. After six years he returned to Salisbury.

—Cardinals have left their secluded homes in the woods and are coming into town and suburbs for food.
